## FRENCH STAND FIRM ON NAVAL ARMAMENTS

### VIEW ASKANCE COOLIDGE NAVAL LIMITATIONS

TO SEND "INFORMER" NOT AN  
"OBSERVER," TO GENEVA  
PARLEY

WILL REFUSE TO CONSIDER RE-  
DUCTIONS IN FIELD OF AUX-  
ILIARY WARSHIPS

By RALPH HEINZEN

(United Press Staff Correspondent)  
Paris, June 15.—French govern-  
ment officials were confident today  
that they had solved the unpleasant  
problem presented them by Presi-  
dent Coolidge's naval limitations  
conference. The solution was be-  
lieved to have been effected without  
having offended the United States  
or receding from the French stand-  
point that such a conference is of  
too limited scope to achieve results  
desired by France.

In naming M. Cauzel, of the  
French foreign office, to represent  
France at the conference beginning  
June 20 at Geneva, the government  
cautiously designated him "inform-  
er" instead of "observer." The desig-  
nation simply emphasizes the  
French determination to refuse to  
consider reduction in the field of  
auxiliary warships, cruisers and sub-  
marines. Those classes were not  
affected by the Washington naval  
limitations conference.

Auxiliary warships are considered  
by France to be indispensable to the  
protection of her extensive coast-  
line and sea routes to the colonies.  
It is only out of courtesy to Mr. Cool-  
idge that France will be represented  
at Geneva at all. To reject the Cool-  
idge invitation would have been un-  
pleasant and distasteful to France,  
hence the "informer."

But, the French attitude toward  
disarmament or limitation of arma-  
ments has not changed since it last  
was explained at Geneva. France is  
unwilling to discuss limitation pieces  
meal but would join in any general  
disarmament conference which would  
consider the entire question.

The entire question, according to  
the French thesis, includes poten-  
tial war strength as well as actual  
armaments of the land, sea and air.  
To that thesis, with respect to the  
inclusion of potential war strength,  
both the United States and Great  
Britain are opposed.

In view of the its attitude, French  
authorities saw no possibility of  
their government taking any active  
part in the Coolidge conference with-  
out sacrificing French policy. There-  
fore, the foreign office instructed  
Cauzel to attend the conference but  
that he must not participate beyond  
listening and that he must report  
what transpires to Paris. Representa-  
tives of Great Britain, Japan and  
the United States, each participating  
fully in the conference, will do the  
talking and make any decisions that  
may be reached.

Semi-official statements here in-  
dicated that France does not expect  
her position at Geneva June 20 to  
detract from the country's prestige,  
especially since Italy has adopted  
about the same attitude toward the  
conference.

### MAY WITHDRAW 15,000 TROOPS FROM RHINELAND

London, June 15.—(UP)—The  
Morning Post's Geneva correspondent  
reported today that Aristide Briand,  
French foreign minister, has sub-  
mitted a proposal which may lead  
to the withdrawal of 15,000 troops  
from the Rhineland.

Briand's proposal calls for the cre-  
ation of an investigating committee  
to be charged with scrutinizing Ger-  
many's armaments on the western  
front, and report if emplacements in  
German forts have been destroyed  
in accordance with the Versailles  
treaty.

### G.A.R. ENCAMPMENT NOT TO BE HELD AT DAYTON, OHIO

Dayton, O., June 15.—(UP)—Plans  
for the national encampment of the  
G. A. R. here in September were  
abandoned today by civic organiza-  
tions in Dayton.

The Chamber of Commerce and var-  
ious committees met here this after-  
noon and decided to advise the na-  
tional commander in Milwaukee that  
some other city be selected for the  
convention.

## Graham Torrence Succeeds Late Judge Stanton

### 3 ROBBERIES NET BANDITS TAXICAB, \$212 IN CASH

Minneapolis, June 15.—(UP)—  
Three robberies here today netted  
bandits a taxicab and \$212 in cash.  
L. R. Gale, driver of a cab, was  
held up by his passenger and was  
forced to hand over \$12 in cash.  
The bandit escaped in Gale's car.  
L. C. Conchard was held up  
while repairing his car and lost  
\$135 to a bandit who escaped in  
an automobile.

The third holdup occurred at a  
gasoline filling station where \$65  
was taken from the cash drawer.  
Ed Kelly, attendant at the station,  
was ordered to face the wall while  
the bandit raided the cash box.

### MINNESOTA DEPARTMENT G. A. R. MEETS

75 MEN, MANY REVEALING EF-  
FECTS OF OLD AGE, GATHER  
AT ST. PAUL

CAMPFIRE HELD IN AUDITORIUM  
OF THE CAPITAL  
CITY

St. Paul, June 15.—(UP)—Seven-  
ty-five men, many revealing ef-  
fects of old age, again gathered  
around the campfire. But the set-  
ting was entirely changed.

During the long years of internal  
strife in '65 these same men very  
often sat about a fire and on the  
cold, damp and sometimes soaked  
ground.

Tuesday night they sat in plush  
seats and watched a performance  
commemorating the annual encamp-  
ment of the Minnesota department  
of the G. A. R.

Today the 75 veterans of the civil  
war will return to their homes in  
various parts of the state following  
transaction of regular business at  
the old capitol.

The campfire was held in the au-  
ditorium here and instead of listen-  
ing to the nearby staccato of rifle shots  
and booming of cannon, the veterans  
heard musical offerings of the Ameri-  
can Legion band and several vocal  
soloists.

State Commander P. H. Gorman  
addressed his comrades and many  
spectators, urging an increase in  
patriotic spirit. He traced the early  
history of the United States.

An appropriate ending of the pro-  
gram was the sounding of taps by  
W. Jannis, bugler.

### PLEADS FOR DEVELOPING AIR SERVICE

COL. LINDBERGH ADDRESSES  
CHAMBER OF COMMERCE  
AT NEW YORK

COMPARES COMMERCIAL AVIA-  
TION OF THIS COUNTRY  
AND EUROPE

New York, June 15.—(UP)—Col.  
Charles Lindbergh today pleaded be-  
fore a joint luncheon of the State  
Chamber of Commerce and the Mer-  
chants Association for development  
of commercial air service and ade-  
quate military and naval air forces  
in the United States.

In one of the longest speeches he  
has made since he became a world  
celebrity—It lasted nearly twenty  
minutes—Lindbergh compared the  
development of commercial aviation  
in this country and in Europe. He  
confessed he was embarrassed in  
Europe when he was asked whether  
America had any airports to com-  
pare with those at Le Bourget, Paris  
and Croydon, London.

New York, June 15.—Charles A.  
Lindbergh gave most of his morning  
today to the folks from the old home  
town.

After sleeping late, he received a  
delegation from Little Falls, Minn.,  
where he was raised. The delega-  
tion had come here in an automobile  
named "Spirit of Little Falls." Word  
of the visit was sent down from his  
apartment by associates.

The delegation was composed of  
Austin A. Grimes, Dr. C. H. Longley,  
Kenneth Martin and J. S. Lewis, all  
prominent in Little Falls.

## German Pilot Expects to Circumnavigate Globe, With Only 3 Stops Enroute Flight

### MAKES CHARGE STATE WITNESS WAS ABDUCTED

SENSATIONAL TESTIMONY AT  
HOUSE OF DAVID  
HEARING

MRS. L. G. BUNDY HAS MYSTERI-  
OUSLY DISAP-  
PEARED

St. Joseph, Mich., June 15.—(UP)—  
Charges that Mrs. L. G. Bundy of  
Gary, Ind., one of the state's wit-  
nesses in the suit to dissolve the  
House of David religious colony, had  
been abducted were made in court  
today by state witnesses.

George E. Nichols, special prose-  
cutor, said that Mrs. Bundy had  
been sought out by investigators and  
found in her home at Gary last week.  
She promised to testify Monday.  
Since that time, she has disappeared.  
Nichols asserted. It is the second  
time, Mrs. Bundy has mysteriously  
disappeared before being called to  
testify in House of David affairs.  
Nichols said. In 1923, at the suit  
of John Hansel against the colony,  
she was abducted by her mother, a  
member of the colony, according to  
the attorney.

He claimed it was an attempt to  
obstruct justice.

Mrs. Bundy's mother, Mrs. W. H.  
Lynch, has been subpoenaed to tes-  
tify at the present trial.

Mrs. Bundy was at one time a  
member of the colony, state's attor-  
neys say, and lived at Shiloh, the  
palatial mansion of King Ben Pur-  
nell.

"On June 4, I received a letter  
from Mrs. Bundy offering to be a  
witness for the state," Nichols ex-  
plained to the court. "On the same  
day, Mrs. Bundy informed me she  
wrote her mother, Mrs. Nancy Lynch  
who is still a member of the colony,  
informing her of her intention."

"A few days later, we ascertained,  
the House of David purchased a new  
automobile and Mrs. Bundy, her hus-  
band, and Mrs. Lynch left Gary in  
the machine for parts unknown."

"This is a clear conspiracy to ob-  
struct justice and we demand a  
complete investigation."

W. J. Barnard, defense attorney,  
jumped to his feet and demanded:  
"Show your proof. We aren't  
afraid of anything you have to offer."

State investigators then testified  
in support of Nichols' statement. It  
is expected House of David members  
would be called by the state to ex-  
plain their alleged actions.

### SECOND INSTALLMENT INCOME TAX IS DUE AND PAYABLE TODAY

Washington, June 15.—(UP)—The  
second installment on income taxes is  
due today and persons who fail to  
make their payments on time are sub-  
ject to a penalty, the internal revenue  
bureau reminded today.

Treasury officials estimated several  
hundred million dollars would be ad-  
ded to the government's money chest  
by income tax payers today.

### SCIENCE MAKES MACHINE, MONSTER FRANKENSTEIN

Milwaukee, June 15.—(UP)—  
Opinion that the "Frankenstein  
monster" has stepped from the  
pages of fiction into reality was  
expressed here by Dr. Guy Stanton  
Ford, dean of the graduate  
school of the University of Minne-  
sota, speaking at the graduating  
exercises of Milwaukee Downer  
college.

"Science has made of the ma-  
chine a Frankenstein monster  
that is ruling man," Dr. Ford said.  
"Unless an adjustment is made  
between the strides of science and  
the mental equipment of man, civi-  
lization will go down."

"We welcome any new discov-  
eries in science that add to our  
welfare. But we must remember  
that man is not readjusted men-  
tally, and is still not far from the  
savage state."

### PUBLISHER STARTS ON DE LUXE AIR TRIP, 10,000 MILES

Amsterdam, June 15.—(UP)—  
Accompanied by his valet, two pi-  
lots and a mechanic, Van Lear  
Black, publisher of the Baltimore  
Sun, left here at 8:30 a. m. today  
(Dutch time) in his Fokker air  
yacht on a 10,000 mile trip to Ba-  
tavia, Dutch East Indies.

Cities along his route include  
Budapest, Constantinople, Aleppo,  
Bagdad, Bundarabbas, Karachi,  
Delhi, Ambala, Allahabad, Cal-  
cutta, Rangoon, Bangkok, Sengora  
and Medan or Singapore.

The publisher flew here yester-  
day from London.

Black's plane made an excellent  
takeoff. Dutch aviators at the  
Schiphol aerodrome wished him  
good luck. Two airplanes escorted  
the publisher's Fokker over the  
city.

Before leaving, Black told the  
United Press that his first stop,  
depending on the weather, would  
be at Budapest or Constantinople.  
He planned to visit 15 countries.

"I may be in Australia within 10  
days, as nothing is impossible with  
Dutch aviators," Black continued.  
"Good communications between  
countries is very important for in-  
ternational relations."

"This is a journey with a prac-  
tical aim, not a stunt."

He said the trip was compara-  
tively inexpensive considering the  
number of countries he would be  
visiting within a short period.

### ST. LOUIS IN PREPARATIONS FOR HOMECOMING

TO GIVE COL. LINDBERGH A  
REAL WESTERN  
GREETING

TO EQUAL IF NOT SURPASS THAT  
OF WASHINGTON AND  
NEW YORK

St. Louis, Mo., June 15.—(UP)—  
St. Louis today continued its prepa-  
rations for the homecoming of Col.  
Charles A. Lindbergh with the am-  
bitious determination of equalling if  
not surpassing the welcome given  
him in Washington and New York.

Cognizant of the obligation which  
rests with the city Lindbergh claims  
as his home, officials have deter-  
mined to make the three-day celebra-  
tion in his honor the greatest yet  
St. Louis has ever staged.

The trans-Atlantic flyer is to ar-  
rive here Friday afternoon at four  
o'clock. According to present plans,  
he will land at the Lambert-St.  
Louis field from which he took off  
for New York to start his now famous  
voyage to Paris.

Thousands of persons are expected  
at the field to welcome Lindbergh.  
Special arrangements are being  
made for transportation to the field  
and for police and military forces to  
keep the landing space clear.

A parade which will be the first  
event of the Saturday holiday in  
Lindbergh's honor is to start at  
11:15 A. M. The committee has  
turned down requests of all organi-  
zations to participate in the parade.  
It will be as much as possible a  
Lindbergh procession.

It will be composed entirely of  
automobiles bearing Lindbergh and  
persons connected with his flight ex-  
cept for the thirty-fifth division air  
unit of the national guard, of which  
the flier is a member, and two bands.

A public banquet in Lindbergh's  
honor is to be given Saturday night.

In accordance with her request, no  
special functions have been planned  
for the entertainment of Mrs. Evan-  
geline Lodge Lindbergh, the flier's  
mother, according to members of the  
committee charged with her recep-  
tion.

A public reception Sunday at For-  
est Park in a natural amphitheater  
capable of holding thousands of per-  
sons will be the last of the official  
reception events for Lindbergh. At  
its conclusion, the flier will attend a  
performance of the famous St. Louis  
municipal opera.

### DR. ECKENER PLANS FLIGHT AROUND WORLD

TO USE DIRIGIBLE NOW BEING  
BUILT AT FRIEDRICH-  
SHAFEN

ESTIMATES GLOBE GIRDLING  
TRIP CAN BE MADE IN  
300 HOURS

Berlin, June 15.—(UP)—Dr. Hugo  
Eckener, who piloted the dirigible  
Los Angeles from Friedrichshafen,  
Germany, to Lakehurst, N. J., is  
planning to fly around the world in  
1928 in a dirigible, LZ-123, now be-  
ing built at the Zeppelin works at  
Friedrichshafen. He has estimated  
that the flight will take not more  
than 300 hours, even considering un-  
favorable weather.

Only three stops will be necessary  
in circumnavigating the earth, Eck-  
ener said. He suggested a mooring  
mast in Russia near the Pacific coast,  
another on the North American side  
of the Pacific, either in the United  
States or Canada, and the present  
hangar at Lakehurst, N. J.

Eckener said that latest improve-  
ments in machinery and dirigible  
construction would guarantee the  
LZ-123 a cruising radius of 14,000  
kilometers (about 8,750 miles), or  
more than enough to enable him to  
circle the earth with three stops for  
fuel.

The LZ-123 is being built for  
regular air service between Seville,  
Spain, and Buenos Aires, he said.  
This is to begin after the proposed  
around the world trip.

Dr. Eckener will leave for Buenos  
Aires this month to negotiate with  
Argentine authorities for the con-  
struction of a hangar and mooring  
mast to enable him to make the  
south Atlantic test flight.

He said it was his purpose in the  
test flights to demonstrate the safety  
of dirigibles. United States authori-  
ties, he said, have already placed  
the Lakehurst hangar at his dis-  
posal.

### COL. E. A. WALSH TO SUCCEED RHINOW AS ADJUTANT GENERAL

St. Paul, June 15.—(UP)—Gov.  
Christianson today named Col. E. A.  
Walsh to succeed General Walter P.  
Rhinow as adjutant general of Min-  
nesota effective July 1 when the lat-  
ter assumes charge of the state bu-  
reau of criminal apprehension.

Col. Walsh has been acting adju-  
tant general during a leave of ab-  
sence of Gen. Rhinow, who is now  
head of prohibition enforcement in  
the northwest.

Gen. Rhinow has not yet formally  
tendered his resignation as adjutant  
general.

### NEW WORLD'S RECORD FOR STAYING ATOP A FLAGPOLE

Newark, N. J., June 15.—(UP)—  
Alvin "Shipwreck" Kelly set a  
new world record today for re-  
maining atop a flagpole. He  
looked at the crowd below him from  
the St. Francis hotel roof; pondered  
over the dangers of traffic, the  
annoyance of telephone calls and  
sundry other unpleasant as-  
pects of modern life, and announced  
he would stay there until Sunday  
night and make it a real world  
record.

He had been squatting on small  
round seat on the top of the flag-  
pole for 192 hours at 10 a. m. He  
has lived on warm milk and hot  
coffee, pulled up to his isolated  
perch by a rope. He has slept a  
total of about 8 hours, dozing off  
for a catnap now and then with  
his thumbs stuck in holes in the  
seat to keep him from falling.

Kelly has shaved himself twice  
since he started his test, but to-  
day it was planned to send a bar-  
ber up on a ladder to do the job  
for him.

### PEACE OF BALKANS IS LIKELY TO BE DISTURBED SOON

Vienna, June 15.—(UP)—Two  
incidents dangerous to the peace  
of the Balkans have been reported  
within the past 48 hours, both in-  
stances involving Italians.

From the town of Kukli, north-  
ern Albania, it was reported that  
the populace had murdered four  
Italian engineers in charge of the  
local street car system.

Near Wochelner-Felstritz, on  
the frontier between Jugo-Slavia  
and Czechoslovakia, Italian fas-  
cists were reported to have fired  
30 shots at a Jugo-Slav frontier  
guard.

### "STRANGLER" MAKES GOOD HIS ESCAPE

NOW OBJECT OF MANITOBA'S  
GREATEST MAN  
HUNT

WANTED IN CONNECTION WITH  
MURDER OF WOMAN  
AND GIRL

Winnipeg, Man., June 14.—(UP)—  
The "Strangler," the object of  
Manitoba's greatest man hunt, ap-  
parently has made good his escape.  
Wanted here in connection with the  
murder of a woman and 14-year-old  
girl over the week-end, the man has  
been sighted in at least a dozen com-  
munities in widely varied sections  
of the province since his description  
was broadcast by radio following  
discovery of the murder victim Sun-  
day. American detectives, working  
in connection with the Winnipeg  
authorities today continued to in-  
vestigate a score or more of possible  
clues, but expressed doubt that any  
of them would lead to the strangler's  
arrest.

Mrs. Emily Patterson, 34, was  
found dead beneath a bed in her  
home early Saturday, and it was  
while authorities searched for the  
murderer through the rooming house  
district that they discovered the  
nude body of 14-year-old Lola Cow-  
en, beneath the bed in a room occu-  
pied only one day by a man giving  
his name as Woodcock. The woman  
and girl had been murdered in a  
similar manner.

American detectives, in Canada  
attending a police convention, of-  
fered their services in trailing the  
man, after expressing belief he is  
wanted for more than a dozen mur-  
ders in cities of the United States.

### POWER DAM BURSTS, DROWNS FOUR PEOPLE

TOURIST FAMILY OF FIVE ALSO  
MISSING NEAR  
BUTTE, MONT.

FLOOD RUSHED AND SUBMERGED  
CAMPING  
GROUND

Butte, Mont., June 15.—(UP)—  
Four persons were known drowned  
and a tourist family of five was  
missing today following the burst-  
ing of a power dam at Wise river,  
34 miles southwest of here.

The dead are Tracey Trueman, his  
wife and son, and Edward Ferguson,  
all stockgrowers of Wise river.

It was believed the tourist family  
was drowned in the flood which  
rushed over the camping ground 11  
miles above the town when the dam  
gave way yesterday under pressure  
of water swollen by melting snows  
in the Rocky mountains. The  
identity of the five could not be  
established.

Twenty miles down stream from  
the dam, the crest of the flood swept  
away bridges and flooded pumping  
stations of the Butte Power Com-  
pany.

About a mile of track on the Ore-  
gon Short Line railroad was washed  
out, disrupting service between Dil-  
lon and Butte.

### BEMIDJI MAN NEW JUDGE OF 15TH DISTRICT

CHOSEN BY GOVERNOR FROM A  
LIST OF TEN ACTIVE  
CANDIDATES

JUDGE TORRENCE HAS BEEN  
COUNTY ATTORNEY OF BEL-  
TRAMI COUNTY

St. Paul, Minn., June 15.—(UP)—  
Governor Theodore Christianson  
today announced appointment of  
Graham Torrence, Bemidji, as judge  
of the 15th judicial district.

Judge Torrence succeeds the late  
Charles W. Stanton of Bemidji, who  
died recently at Brainerd. He was  
chosen by the governor from a list  
of 10 active candidates for the posi-  
tion.

Judge Torrence has been county  
attorney of Beltrami county and is  
the son of Judge Eli Torrence of  
Minneapolis, former national com-  
mander of the G. A. R.

### TEN INDICTED FOR MURDER OF LORY PRICE

Marion, Ill., June 15.—(UP)—Ten  
men were indicted by the Williamson  
grand jury this afternoon for the  
murder of Lory Price, state highway  
patrolman, and his wife.

They are:  
Charles Birger, gang feud leader;  
Art Newman, former Birger lieutenant  
who confessed knowing of the crimes;  
Freddie Wooten, Connie Ritter, Riley  
Simmons, Frank Shrader, Jack Crews,  
Clarence Jones, Leslie Simpson and  
Ernest Blue, all alleged followers of  
Birger.

### HEREFORD BREEDERS INSPECT HERD AT U FARM SCHOOL

St. Paul, June 15.—(UP)—Approxi-  
mately 100 members of the State Here-  
ford Breeders' association today in-  
spected the experimental herd at the  
University of Minnesota farm school  
here.

The association members are attend-  
ing Hereford breeders' day at the Min-  
nesota agricultural experiment sta-  
tion.

A stock judging contest and elec-  
tion of officers was to conclude the  
association's annual picnic and busi-  
ness meeting.

### SINCLAIR TO SHOW POLICE HIS NOVEL 'OIL' NOT OBSCENE

Boston, June 15.—(UP)—Upton Sin-  
clair today formally invited the Bos-  
ton police to attend a public meeting  
which he has planned for tomorrow  
morning, when he will seek to prove  
that his new novel, "Oil," is no more  
obscene than the Bible or Shakes-  
peare's "Hamlet."

"Oil" recently was banned here as  
being obscene literature tending to  
corrupt the morals of youth.

### OLD PICTURE FILM EXPLODES; DOES \$150,000 DAMAGE

Ridgefield, N. J., June 15.—(UP)—  
An explosion of old motion picture  
film in the laboratory of the Plastaloid  
Film company today razed the plant  
and two adjoining dwellings. Damage  
was estimated at \$150,000.

Police said only five men were in  
the film building when the explosion  
occurred and all had been accounted  
for. Three were slightly burned.

### GUTHRIE PIONEER HAD EPOCHAL CROSSING TOO

Guthrie, Okla., June 15.—(UP)—  
Lindbergh's trans-Atlantic flight holds  
interest for Thomas Sloan, Guthrie  
pioneer, but it can't compare with his  
own epochal crossing. When steam-  
boats were a novelty Sloan, an Irish  
lad of 14 years, came to America in  
1827, 100 years ago. He is 114 years  
old and was born in County Down,  
Ireland.

### VIEW ASKANCE COOLIDGE NAVAL LIMITATIONS

TO SEND "INFORMER," NOT AN  
"OBSERVER," TO GENEVA  
PARLEY

WILL REFUSE TO CONSIDER RE-  
DUCTIONS IN FIELD OF AUX-  
ILIARY WARSHIPS

By RALPH HEINZEN

(United Press Staff Correspondent)  
Paris, June 15.—French govern-  
ment officials were confident today  
that they had solved the unpleasant  
problem presented them by Presi-  
dent Coolidge's naval limitations  
conference. The solution was be-  
lieved to have been effected without  
having offended the United States  
or receding from the French stand-  
point that such a conference is of  
too limited scope to achieve results  
desired by France.

In naming M. Cauzel, of the  
French foreign office, to represent  
France at the conference beginning  
June 20 at Geneva, the government  
cautiously designated him "infor-  
mer" instead of "observer." The de-  
signation simply emphasizes the  
French determination to refuse to  
consider reduction in the field of  
auxiliary warships, cruisers and sub-  
marines. Those classes were not  
affected by the Washington naval  
limitations conference.

Auxiliary warships are considered  
by France to be indispensable to the  
protection of her extensive coast-  
line and sea routes to the colonies.  
It is only out of courtesy to Mr. Cool-  
idge that France will be represented  
at Geneva at all. To reject the Cool-  
idge invitation would have been un-  
pleasant and distasteful to France,  
hence the "informer."

But, the French attitude toward  
disarmament or limitation of arma-  
ments has not changed since it last  
was explained at Geneva. France is  
unwilling to discuss limitation piece  
meal but would join in any general  
disarmament conference which would  
consider the entire question.

The entire question, according to  
the French thesis, includes poten-  
tial war strength as well as actual  
armaments of the land, sea and air.  
To that thesis, with respect to the  
inclusion of potential war strength,  
both the United States and Great  
Britain are opposed.

In view of the its attitude, French  
authorities saw no possibility of  
their government taking any active  
part in the Coolidge conference with-  
out sacrificing French policy. There-  
fore, the foreign office instructed  
Cauzel to attend the conference but  
that he must not participate beyond  
listening and that he must report  
what transpires to Paris. Representa-  
tives of Great Britain, Japan and  
the United States, each participating  
fully in the conference, will do the  
talking and make any decisions that  
may be reached.

Semi-official statements here in-  
dicated that France does not expect  
her position at Geneva June 20 to  
detract from the country's prestige,  
especially since Italy has adopted  
about the same attitude toward the  
conference.

### MAY WITHDRAW 15,000 TROOPS FROM RHINELAND

London, June 15.—(UP)—The  
Morning Post's Geneva correspondent  
reported today that Aristide Briand,  
French foreign minister, has sub-  
mitted a proposal which may lead  
to the withdrawal of 15,000 troops  
from the Rhineland.

Briand's proposal calls for the cre-  
ation of an investigating committee  
to be charged with scrutinizing Ger-  
many's armaments on the western  
front, and report if emplacements in  
German forts have been destroyed  
in accordance with the Versailles  
treaty.

### G.A.R. ENCAMPMENT NOT TO BE HELD AT DAYTON, OHIO

Dayton, O., June 15.—(UP)—Plans  
for the national encampment of the  
G. A. R. here in September were  
abandoned today by civic organiza-  
tions in Dayton.

The Chamber of Commerce and var-  
ious committees met here this after-  
noon and decided to advise the na-  
tional commander in Milwaukee that  
some other city be selected for the  
convention.

## Graham Torrence Succeeds Late Judge Stanton

### 3 ROBBERIES NET BANDITS TAXICAB, \$212 IN CASH

Minneapolis, June 15.—(UP)—  
Three robberies here today netted  
bandits a taxicab and \$212 in cash.  
L. R. Gale, driver of a cab, was  
held up by his passenger and was  
forced to hand over \$12 in cash.  
The bandit escaped in Gale's car.  
L. C. Couchard was held up  
while repairing his car and lost  
\$135 to a bandit who escaped in  
an automobile.

The third holdup occurred at a  
gasoline filling station where \$65  
was taken from the cash drawer.  
Ed Kelly, attendant at the station,  
was ordered to face the wall while  
the bandit raided the cash box.

### MINNESOTA DEPARTMENT G. A. R. MEETS

75 MEN, MANY REVEALING EF-  
FECTS OF OLD AGE, GATHER  
AT ST. PAUL

CAMPFIRE HELD IN AUDITORIUM  
OF THE CAPITAL  
CITY

St. Paul, June 15.—(UP)—Sev-  
enty-five men, many revealing ef-  
fects of old age, again gathered  
around the campfire. But the set-  
ting was entirely changed.

During the long years of internal  
strife in '65 these same men very  
often sat about a fire and on the  
cold, damp and sometimes soaked  
ground.

Tuesday night they sat in plush  
seats and watched a performance  
commemorating the annual encamp-  
ment of the Minnesota department  
of the G. A. R.

Today the 75 veterans of the civil  
war will return to their homes in  
various parts of the state following  
transaction of regular business at  
the old capitol.

The campfire was held in the au-  
ditorium here and instead of listen-  
ing to the nearby staccato of rifle shots  
and booming of cannon, the veterans  
heard musical offerings of the Ameri-  
can Legion band and several vocal  
soloists.

State Commander P. H. Gorman  
addressed his comrades and many  
spectators, urging an increase in  
patriotic spirit. He traced the early  
history of the United States.

An appropriate ending of the pro-  
gram was the sounding of taps by  
W. Jannis, bugler.

### PLEADS FOR DEVELOPING AIR SERVICE

COL. LINDBERGH ADDRESSES  
CHAMBER OF COMMERCE  
AT NEW YORK

COMPARES COMMERCIAL AVIA-  
TION OF THIS COUNTRY  
AND EUROPE

New York, June 15.—(UP)—Col.  
Charles Lindbergh today pleaded be-  
fore a joint luncheon of the State  
Chamber of Commerce and the Mer-  
chants Association for development  
of commercial air service and ade-  
quate military and naval air forces  
in the United States.

In one of the longest speeches he  
has made since he became a world  
celebrity—it lasted nearly twenty  
minutes—Lindbergh compared the  
development of commercial aviation  
in this country and in Europe. He  
confessed he was embarrassed in  
Europe when he was asked whether  
America had any airports to com-  
pare with those at Le Bourget, Paris  
and Croydon, London.

New York, June 15.—Charles A.  
Lindbergh gave most of his morning  
today to the folks from the old home  
town.

After sleeping late, he received a  
delegation from Little Falls, Minn.,  
where he was raised. The delega-  
tion had come here in an automobile  
named "Spirit of Little Falls." Word  
of the visit was sent down from his  
apartment by associates.

The delegation was composed of  
Austin A. Grimes, Dr. C. H. Longley,  
Kenneth Martin and J. S. Lewis, all  
prominent in Little Falls.

## German Pilot Expects to Circumnavigate Globe, With Only 3 Stops Enroute Flight

### MAKES CHARGE STATE WITNESS WAS ABDUCTED

SENSATIONAL TESTIMONY AT  
HOUSE OF DAVID  
HEARING

MRS. L. G. BUNDY HAS MYSTERI-  
OUSLY DISAP-  
PEARED

St. Joseph, Mich., June 15.—(UP)—  
Charges that Mrs. L. G. Bundy of  
Gary, Ind., one of the state's wit-  
nesses in the suit to dissolve the  
House of David religious colony, had  
been abducted were made in court  
today by state witnesses.

George E. Nichols, special prose-  
cutor, said that Mrs. Bundy had  
been sought out by investigators and  
found in her home at Gary last week.  
She promised to testify Monday.  
Since that time, she has disappeared.  
Nichols asserted. It is the second  
time, Mrs. Bundy has mysteriously  
disappeared before being called to  
testify in House of David affairs.  
Nichols said. In 1923, at the suit  
of John Hansel against the colony,  
she was abducted by her mother, a  
member of the colony, according to  
the attorney.

He claimed it was an attempt to  
obstruct justice.

Mrs. Bundy's mother, Mrs. W. H.  
Lynch, has been subpoenaed to tes-  
tify at the present trial.

Mrs. Bundy was at one time a  
member of the colony, state's attor-  
neys say, and lived at Shiloh, the  
palatial mansion of King Ben Bur-  
nell.

"On June 4, I received a letter  
from Mrs. Bundy offering to be a  
witness for the state," Nichols ex-  
plained to the court. "On the same  
day, Mrs. Bundy informed me she  
wrote her mother, Mrs. Nancy Lynch  
who is still a member of the colony,  
informing her of her intention."

"A few days later, we ascertained,  
the House of David purchased a new  
automobile and Mrs. Bundy, her hus-  
band, and Mrs. Lynch left Gary in  
the machine for parts unknown."

"This is a clear conspiracy to ob-  
struct justice and we demand a  
complete investigation."

W. J. Barnard, defense attorney,  
jumped to his feet and demanded:  
"Show your proof. We aren't  
afraid of anything you have to offer."

State investigators then testified  
in support of Nichols' statement. It  
is expected House of David members  
would be called by the state to ex-  
plain their alleged actions.

### SECOND INSTALLMENT INCOME TAX IS DUE AND PAYABLE TODAY

Washington, June 15.—(UP)—The  
second installment on income taxes is  
due today and persons who fail to  
make their payments on time are sub-  
ject to a penalty, the internal revenue  
bureau reminded today.

Treasury officials estimated several  
hundred million dollars would be ad-  
ded to the government's money chest  
by income tax payers today.

### SCIENCE MAKES MACHINE, MONSTER FRANKENSTEIN

Milwaukee, June 15.—(UP)—  
Opinion that the "Frankenstein  
monster" has stepped from the  
pages of fiction into reality was  
expressed here by Dr. Guy Stanton  
Ford, dean of the graduate  
school of the University of Minne-  
sota, speaking at the graduating  
exercises of Milwaukee Downer  
college.

"Science has made of the ma-  
chine a Frankenstein monster  
that is ruling man," Dr. Ford said.  
"Unless an adjustment is made  
between the strides of science and  
the mental equipment of man, civi-  
lization will go down."

"We welcome any new discov-  
eries in science that add to our  
welfare. But we must remember  
that man is not readjusted men-  
tally, and is still not far from the  
savage state."

### PUBLISHER STARTS ON DE LUXE AIR TRIP, 10,000 MILES

Amsterdam, June 15.—(UP)—  
Accompanied by his valet, two pi-  
lots and a mechanic, Van Lear  
Black, publisher of the Baltimore  
Sun, left here at 8:30 a. m. today  
(Dutch time) in his Fokker air  
yacht on a 10,000 mile trip to Ba-  
tavia, Dutch East Indies.

Cities along his route include  
Budapest, Constantinople, Aleppo,  
Bagdad, Bundarabbas, Karachi,  
Delhi, Ambala, Allahabad, Cal-  
cutta, Rangoon, Bangkok, Sengora  
and Medan or Singapore.

The publisher flew here yester-  
day from London.

Black's plane made an excellent  
takeoff. Dutch aviators at the  
Schiphol aerodrome wished him  
good luck. Two airplanes escorted  
the publisher's Fokker over the  
city.

Before leaving, Black told the  
United Press that his first stop,  
depending on the weather, would  
be at Budapest or Constantinople.  
He planned to visit 15 countries.

"I may be in Australia within 10  
days, as nothing is impossible with  
Dutch aviators," Black continued.  
"Good communications between  
countries is very important for in-  
ternational relations."

"This is a journey with a prac-  
tical aim, not a stunt."

He said the trip was compara-  
tively inexpensive considering the  
number of countries he would be  
visiting within a short period.

### ST. LOUIS IN PREPARATIONS FOR HOMECOMING

TO GIVE COL. LINDBERGH A  
REAL WESTERN  
GREETING

TO EQUAL IF NOT SURPASS THAT  
OF WASHINGTON AND  
NEW YORK

St. Louis, Mo., June 15.—(UP)—  
St. Louis today continued its prepa-  
rations for the homecoming of Col.  
Charles A. Lindbergh with the am-  
bitious determination of equalling if  
not surpassing the welcome given  
him in Washington and New York.

Cognizant of the obligation which  
rests with the city Lindbergh claims  
as his home, officials have deter-  
mined to make the three-day celebra-  
tion in his honor the greatest fête St.  
Louis has ever staged.

The trans-Atlantic flyer is to ar-  
rive here Friday afternoon at four  
o'clock. According to present plans,  
he will land at the Lambert-St.  
Louis field from which he took off  
for New York to start his now fam-  
ous voyage to Paris.

Thousands of persons are expected  
at the field to welcome Lindbergh.  
Special arrangements are being  
made for transportation to the field  
and for police and military forces to  
keep the landing space clear.

A parade which will be the first  
event of the Saturday holiday in  
Lindbergh's honor is to start at  
11:15 A. M. The committee has  
turned down requests of all organi-  
zations to participate in the parade.  
It will be as much as possible a  
Lindbergh procession.

It will be composed entirely of  
automobiles bearing Lindbergh and  
persons connected with his flight ex-  
cept for the thirty-fifth division air  
unit of the national guard, of which  
the flyer is a member, and two bands.

A public banquet in Lindbergh's  
honor is to be given Saturday night.  
In accordance with her request, no  
special functions have been planned  
for the entertainment of Mrs. Evan-  
geline Lodge Lindbergh, the flyer's  
mother, according to members of the  
committee charged with her recep-  
tion.

A public reception Sunday at For-  
est Park in a natural amphitheater  
capable of holding thousands of per-  
sons will be the last of the official  
reception events for Lindbergh. At  
its conclusion, the flyer will attend a  
performance of the famous St. Louis  
municipal opera.

### DR. ECKENER PLANS FLIGHT AROUND WORLD

TO USE DIRIGIBLE NOW BEING  
BUILT AT FRIEDRICH-  
SHAFEN

ESTIMATES GLOBE GIRDLING  
TRIP CAN BE MADE IN  
300 HOURS

Berlin, June 15.—(UP)—Dr. Hugo  
Eckener, who piloted the dirigible  
Los Angeles from Friedrichshafen,  
Germany, to Lakehurst, N. J., is  
planning to fly around the world in  
1928 in a dirigible, LZ-123, now be-  
ing built at the Zeppelin works at  
Friedrichshafen. He has estimated  
that the flight will take not more  
than 300 hours, even considering un-  
favorable weather.

Only three stops will be necessary  
in circumnavigating the earth, Eck-  
ener said. He suggested a mooring  
mast in Russia near the Pacific coast,  
another on the North American side  
of the Pacific, either in the United  
States or Canada, and the present  
hangar at Lakehurst, N. J.

Eckener said that latest improve-  
ments in machinery and dirigible  
construction would guarantee the  
LZ-123 a cruising radius of 14,000  
kilometers (about 8,750 miles), or  
more than enough to enable him to  
circle the earth with three stops for  
fuel.

The LZ-123 is being built for  
regular air service between Seville,  
Spain, and Buenos Aires, he said.  
This is to begin after the proposed  
around the world trip.

Dr. Eckener will leave for Buenos  
Aires this month to negotiate with  
Argentine authorities for the con-  
struction of a hangar and mooring  
mast to enable him to make the  
south Atlantic test flight.

He said it was his purpose in the  
test flights to demonstrate the safety  
of dirigibles. United States authori-  
ties, he said, have already placed  
the Lakehurst hangar at his dis-  
posal.

### COL. E. A. WALSH TO SUCCEED RHINOW AS ADJUTANT GENERAL

St. Paul, June 15.—(UP)—Gov.  
Christianson today named Col. E. A.  
Walsh to succeed General Walter F.  
Rhino as adjutant general of Min-  
nesota effective July 1 when the lat-  
ter assumes charge of the state bu-  
reau of criminal apprehension.

Col. Walsh has been acting ad-  
jutant general during a leave of ab-  
sence of Gen. Rhinow, who is now  
head of prohibition enforcement in  
the northwest.

Gen. Rhinow has not yet formally  
tendered his resignation as adjutant  
general.

### NEW WORLD'S RECORD FOR STAYING ATOP A FLAGPOLE

Newark, N. J., June 15.—(UP)—  
Alvin "Shipwreck" Kelly set a  
new world record today for re-  
maining atop a flagpole. He  
looked at the crowd below him on  
the St. Francis hotel roof; pondered  
over the dangers of traffic,  
the annoyance of telephone calls  
and sundry other unpleasant as-  
pects of modern life, and announced  
he would stay there until Sunday  
night and make it a real world  
record.

He had been squatting on small  
round seat on the top of the flag-  
pole for 192 hours at 10 a. m. He  
has lived on warm milk and hot  
coffee, pulled up to his isolated  
perch by a rope. He has slept a  
total of about 8 hours, dozing off  
for a catnap now and then with  
his thumbs stuck in holes in the  
seat to keep him from falling.

Kelly has shaved himself twice  
since he started his test, but to-  
day it was planned to send a bar-  
ber up on a ladder to do the job  
for him.

### PEACE OF BALKANS IS LIKELY TO BE DISTURBED SOON

Vienna, June 15.—(UP)—Two  
incidents dangerous to the peace  
of the Balkans have been reported  
within the past 48 hours, both in-  
stances involving Italians.

From the town of Kukli, north-  
ern Albania, it was reported that  
the populace had murdered four  
Italian engineers in charge of the  
local street car system.

Near Wochener-Felstzitz, on  
the frontier between Jugoslavia  
and Czechoslovakia, Italian fas-  
cists were reported to have fired  
30 shots at a Jugo-Slav frontier  
guard.

### "STRANGLER" MAKES GOOD HIS ESCAPE

NOW OBJECT OF MANITOBA'S  
GREATEST MAN  
HUNT

WANTED IN CONNECTION WITH  
MURDER OF WOMAN  
AND GIRL

Winnipeg, Man., June 14.—(UP)—  
The "Strangler," the object of  
Manitoba's greatest man hunt, ap-  
parently has made good his escape.  
Wanted here in connection with the  
murder of a woman and 14-year-old  
girl over the week-end, the man has  
been sighted in at least a dozen com-  
munities in widely varied sections  
of the province since his description  
was broadcast by radio following  
discovery of the murder victim Sun-  
day. American detectives, working  
in connection with the Winnipeg  
authorities today continued to in-  
vestigate a score or more of possible  
clues, but expressed doubt that any  
of them would lead to the strangler's  
arrest.

Mrs. Emily Patterson, 34, was  
found dead beneath a bed in her  
home early Saturday, and it was  
while authorities searched for the  
murderer through the rooming house  
district that they discovered the  
nude body of 14-year-old Lola Cow-  
en, beneath the bed in a room occu-  
pied only one day by a man giving  
his name as Woodcock. The woman  
and girl had been murdered in a  
similar manner.

American detectives, in Canada  
attending a police convention, of-  
fered their services in trailing the  
man, after expressing belief he  
was wanted for more than a dozen mur-  
ders in cities of the United States.

### POWER DAM BURSTS, DROWNS FOUR PEOPLE

TOURIST FAMILY OF FIVE ALSO  
MISSING NEAR  
BUTTE, MONT.

FLOOD RUSHED AND SUBMERGED  
CAMPING  
GROUND

Butte, Mont., June 15.—(UP)—  
Four persons were known drowned  
and a tourist family of five was  
missing today following the burst-  
ing of a power dam at Wise river,  
34 miles southwest of Here.

The dead are Tracey Trueman, his  
wife and son, and Edward Ferguson,  
all stockgrowers of Wise river.

It was believed the tourist family  
was drowned in the flood which  
rushed over the camping ground 11  
miles above the town when the dam  
gave way yesterday under pressure  
of water swollen by melting snows  
in the Rocky mountains. The  
identity of the five could not be  
established.

Twenty miles down stream from  
the dam, the crest of the flood swept  
away bridges and flooded pumping  
stations of the Butte Power Com-  
pany.

Wise River suffered heavy prop-  
erty loss, the postoffice was washed  
down stream along with several  
dwellings.

About a mile of track on the Ore-  
gon Short Line railroad was washed  
out, disrupting service between Dil-  
on and Butte.

### BEMIDJI MAN NEW JUDGE OF 15TH DISTRICT

CHOSEN BY GOVERNOR FROM A  
LIST OF TEN ACTIVE  
CANDIDATES

JUDGE TORRENCE HAS BEEN  
COUNTY ATTORNEY OF BEL-  
TRAMI COUNTY

St. Paul, Minn., June 15.—(UP)—  
Governor Theodore Christianson  
today announced appointment of  
Graham Torrence, Bemidji, as judge  
of the 15th judicial district.

Judge Torrence succeeds the late  
Charles W. Stanton of Bemidji, who  
died recently at Brainerd. He was  
chosen by the governor from a list  
of 10 active candidates for the posi-  
tion.

Judge Torrence has been county  
attorney of Beltrami county and is  
the son of Judge Eli Torrence of  
Minneapolis, former national com-  
mander of the G. A. R.

### TEN INDICTED FOR MURDER OF LORY PRICE

Marion, Ill., June 15.—(UP)—Ten  
men were indicted by the Williamson  
grand jury this afternoon for the mur-  
der of Lory Price, state highway pa-  
trolman, and his wife.

They are:  
Charles Birger, gang feud leader;  
Art Newman, former Birger lieutenant  
who confessed knowing of the crimes;  
Freddie Wooten, Connie Ritter, Riley  
Simmons, Frank Shrader, Jack Crews,  
Clarence Jones, Leslie Simpson and  
Ernest Blue, all alleged followers of  
Birger.

### HEREFORD BREEDERS INSPECT HERD AT U FARM SCHOOL

St. Paul, June 15.—(UP)—Approxi-  
mately 100 members of the State Here-  
ford Breeders' association today in-  
spected the experimental herd at the  
University of Minnesota farm school  
here.

The association members are attend-  
ing Hereford breeders' day at the Min-  
nesota agricultural experiment sta-  
tion.

A stock judging contest and elec-  
tion of officers was to conclude the  
association's annual picnic and busi-  
ness meeting.

### SINCLAIR TO SHOW POLICE HIS NOVEL 'OIL' NOT OBSCENE

Boston, June 15.—(UP)—Upton Sin-  
clair today formally invited the Bos-  
ton police to attend a public meeting  
which he has planned for tomorrow  
morning, when he will seek to prove  
that his new novel, "Oil," is no more  
obscene than the Bible or Shakes-  
peare's "Hamlet."

"Oil" recently was banned here as  
being obscene literature tending to  
corrupt the morals of youth.

### OLD PICTURE FILM EXPLODES; DOES \$150,000 DAMAGE

Ridgefield, N. J., June 15.—(UP)—  
An explosion of old motion picture  
film in the laboratory of the Plastaloid  
Film company today razed the plant  
and two adjoining dwellings. Damage  
was estimated at \$150,000.

Police said only five men were in  
the film building when the explosion  
occurred and all had been accounted  
for. Three were slightly burned.

### GUTHRIE PIONEER HAD EPOCHAL CROSSING TOO

Guthrie, Okla., June 15.—(UP)—  
Lindbergh's trans-Atlantic flight holds  
interest for Thomas Sloan, Guthrie  
pioneer, but it can't compare with his  
own epochal crossing. When steam-  
boats were a novelty Sloan, an Irish  
lad of 14 years, came to America in  
1827, 100 years ago. He is 114 years  
old and was born in County Down,  
Ireland.

## PERSONAL, CLUB and LOCAL NEWS

## CAMP CLEARWATER TO OPEN SUNDAY

Six Weeks at Camp Will be High Spot in Year for Scouts in Area

### THREE PERIODS ARRANGED

First Session, June 19-July 3 Complete in Enrollment: Assistant Director Arrives

Camp Clearwater opens Sunday, June 19, at 5 o'clock for a six weeks' period which will be the high spot in the scouting year. The first period from June 19 to July 3 is complete in enrollment, the second period has eight places left and the third period is practically open.

Mr. Dukelow, the assistant camp director, medical student from the University of Minnesota, arrived in Brainerd on the noon bus today for the Crow Wing Area camp leaders' training course which is given at camp previous to its opening.

All boys upon arriving at camp this year will be given a medical examination which will take in such things as weight, heart, lungs, throat, feet and general posture. This will enable the camp leaders to care for the special needs of every camper. The boys will also be weighed before leaving camp.

### Water Safety

An effort is made at camp to give every boy a thorough understanding of the water in order that he may be able to not only care for himself in it but also help others who might be in need. The water front is laid out in such a way that a life guard is near all boys that are swimming at all times. A careful check is kept of the boys in the following way: every boy before entering the water goes to the check-board where he has a small tag which is white on one side and red on the other and bearing his name. Before going into the water, he turns this so the red side is out. Upon leaving the water he turns it over again so that it shows white. In addition to this, they use the buddy system which calls for two boys of the same swimming ability playing together in the water. At intervals the life guard calls for buddy check-up upon which signal buddies take hold of hands and hold them up in the air. If the life guard sees anybody without a buddy, he proceeds to find where he is. In this way it is known where every boy is at all times.

Besides the diving and swimming contests, there are many aquatic sports which the boys will enjoy at camp. Water kittenball, water cageball, novelty games, etc., all make up the good times. All boys are instructed in the art of life saving during their stay at camp.

### New Roofs on Cabins

The six sleeping cabins are now roofed and present a fine appearance.

This year every boy will have a bed of his own so that no two boys will have to sleep together. Rainy weather will have no effect on camp this year because of the splendid equipment.

Handicraft will prove mighty interesting. There will be material and tools to build rustic furniture, leather-work, Indian-craft such as archery, and many other things.

The big sea scout boat is now out at camp and bids to be a mighty popular part of it.

Camp will be divided into teams, the Sioux and Chippewas. These tribes will have many exciting games of kittenball, etc., through each period which will be mighty interesting.

The menu for camp has been prepared by Dr. Wilder of the Mayo clinic at Rochester. The menu this year is, the same as last year except that every other Sunday chicken will be served at dinner.

Scouts desiring to attend camp who have not already registered are requested to do so at once to B. Perry Newton, scout executive.

### "THE BEST" BEAUTY SHOP

Opened by Miss Jessie Tillquist at 606½ Front Street

Miss Jessie Tillquist, who has for the past three years been connected with the Rose Beauty parlor, is on Thursday, June 16, opening her own shop to be known as "The Best" Beauty shop, in the suite formerly occupied by the J. R. Smith Insurance offices at 606½ Front street, over Dunn's Drug store.

The rooms have been re-decorated and fitted with the latest and most up-to-date beauty shop equipment and appliances.

Miss Tillquist was graduated from DeGuile's National School of Cosmetology on June 13, 1925 and is thoroughly experienced in all lines of beauty culture, scalp treatments, hair dressing and manicuring.

Miss Marian Romaine, also a DeGuile graduate and an expert licensed hair cutter and beauty operator will be associated with Miss Tillquist.

## NEW GROCERY, CONFECTIONERY

## Camp Clearwater for Boy Scouts

Camp Clearwater for Boy Scouts of the area is located on Clearwater Lake with all cabins overlooking the lake. The above chart shows its location in the district.

Two of the attractions of Camp Clearwater are the splendid facilities for swimming and sailboating. The above pictures show a group of boys on the diving tower and pier ready to take their morning splash and the sail boat as it appears ready for a sail.

Good camp cooking will be one of the features at Camp Clearwater this year. The menu is prepared by Dr. Wilder of the Mayo Clinic at Rochester. These boys were snapped just previous to meal time.

### Forward Society

The Forward society of the Clara Lutheran church will meet Thursday evening at the home of Miss Bertha Olson, 113 Third Ave. N. E.

### Methodist Choir Rehearsal

The Methodist choir rehearsal will be held at the home of B. T. Evans, 224 North Sixth street, Thursday evening at 7:30 o'clock.

Buy a Season Ticket and Save Money

### TICKET INFORMATION

ADULT EXCHANGEABLE ADMISSION TICKET: This ticket entitles the owner, or any member of the owner's immediate family, to one admission only to each and every session of the Chautauqua. Not transferable outside of the immediate family. Not good until signed by the owner. Price \$2.00.

CHILD'S EXCHANGEABLE ADMISSION TICKET: Same conditions as above. Good for children eight years of age and up to and including fourteen years of age. Price \$1.00.

SINGLE ADMISSION: The price of single admission varies at the different sessions. See the Hour by Hour program.

NOTE: The amount of money derived from season tickets pledged during the present Chautauqua session determines the amount of money that the Board of Directors can spend on their program for next year. The more tickets pledged, the better the program. Therefore, subscribe liberally for tickets and make certain a great program for 1928.

### BAND CONCERT PROGRAM

Brainerd Municipal Band Will Play Tonight at 8 o'clock in Gregory Park

The following program has been arranged for the Municipal band concert tonight at 8 o'clock at Gregory Park:

## CAMP CLEARWATER TO OPEN SUNDAY

Six Weeks at Camp Will be High Spot in Year for Scouts in Area

### THREE PERIODS ARRANGED

First Session, June 19-July 3 Complete in Enrollment; Assistant Director Arrives

Camp Clearwater opens Sunday, June 19, at 5 o'clock for a six weeks' period which will be a high spot in the scouting year. The first period from June 19 to July 3 is complete in enrollment, the second period has eight places left and the third period is practically open.

Mr. Dukelow, the assistant camp director, medical student from the University of Minnesota, arrived in Brainerd on the noon bus today for the Crow Wing Area camp leaders' training course which is given at camp previous to its opening.

All boys upon arriving at camp this year will be given a medical examination which will take in such things as weight, heart, lungs, throat, feet and general posture. This will enable the camp leaders to care for the special needs of every camper. The boys will also be weighed before leaving camp.

### Water Safety

An effort is made at camp to give every boy a thorough understanding of the water in order that he may be able to not only care for himself in it but also help others who might be in need. The water front is laid out in such a way that a life guard is near all boys that are swimming at all times. A careful check is kept of the boys in the following way: every boy before entering the water goes to the check-board where he has a small tag which is white on one side and red on the other and bearing his name. Before going into the water, he turns this so the red side is out. Upon leaving the water he turns it over again so that it shows white. In addition to this, they use the buddy system which calls for two boys of the same swimming ability playing together in the water. At intervals the life guard calls for buddy check-up upon which signal buddies take hold of hands and hold them up in the air. If the life guard sees anybody without a buddy, he proceeds to find where he is. In this way it is known where every boy is at all times.

Besides the diving and swimming contests, there are many aquatic sports which the boys will enjoy at camp. Water kittenball, water cageball, novelty games, etc., all make up the good times. All boys are instructed in the art of life saving during their stay at camp.

### New Roofs on Cabins

The six sleeping cabins are now roofed and present a fine appearance. This year every boy will have a bed of his own so that no two boys will have to sleep together. Rainy weather will have no effect on camp this year because of the splendid equipment.

Handicraft will prove mighty interesting. There will be material and tools to build rustic furniture, leather-work, Indian-craft such as archery, and many other things.

The big sea scout boat is now out at camp and bids to be a mighty popular part of it.

Camp will be divided into teams, the Sioux and Chippewas. These tribes will have many exciting games of kittenball, etc., through each period which will be mighty interesting.

The menu for camp has been prepared by Dr. Wilder of the Mayo clinic at Rochester. The menu this year is, the same as last year except that every other Sunday chicken will be served at dinner.

Scouts desiring to attend camp who have not already registered are requested to do so at once to B. Perry Newton, scout executive.

### "THE BEST" BEAUTY SHOP

Opened by Miss Jessie Tillquist at 606½ Front Street

Miss Jessie Tillquist, who has for the past three years been connected with the Rose Beauty parlor, is on Thursday, June 16, opening her own shop to be known as "The Best" Beauty shop, in the suite formerly occupied by the J. R. Smith Insurance offices at 606½ Front street, over Dunn's Drug store.

The rooms have been re-decorated and fitted with the latest and most up-to-date beauty shop equipment and appliances.

Miss Tillquist was graduated from DeGuille's National School of Cosmetology on June 13, 1925 and is thoroughly experienced in all lines of beauty culture, scalp treatments, hair dressing and manicuring.

Miss Marian Romaine, also a DeGuille graduate and an expert licensed hair cutter and beauty operator will be associated with Miss Tillquist.

## NEW GROCERY, CONFECTIONERY

Store Opens Thursday Morning at 909 South Sixth Street

### KUEHMICHEL & MESCHKE

Complete Line of Groceries, Confections and Meats to be Carried

A grocery store and confectionery is being opened, Thursday, June 16, at 909 South Sixth street by Kuehmichel and Meschke. A complete line of groceries, confections and meats will be carried.

Five dollars in trade is being offered by the management to the person suggesting the name accepted for the new store.

## Camp Clearwater for Boy Scouts

Camp Clearwater for Boy Scouts of the area is located on Clearwater Lake with all cabins overlooking the lake. The above chart shows its location in the district.

Two of the attractions of Camp Clearwater are the splendid facilities for swimming and sailboating. The above pictures show a group of boys on the diving tower and pier ready to take their morning splash and the sail boat as it appears ready for a sail.

Good camp cooking will be one of the features at Camp Clearwater this year. The menu is prepared by Dr. Wilder of the Mayo Clinic at Rochester. These boys were snapped just previous to meal time.

### Forward Society

The Forward society of the Clara Lutheran church will meet Thursday evening at the home of Miss Bertha Olson, 113 Third Ave. N. E.

### Methodist Choir Rehearsal

The Methodist choir rehearsal will be held at the home of E. T. Evans, 224 North Sixth street, Thursday evening at 7:30 o'clock.

## OFFICIAL PROGRAM BRAINERD Independent Chautauqua June 27 to July 1, 1927 AT PARK THEATRE

DAILY PROGRAM  
Admission: Afternoons, Adults 50c; Children 25c.  
Admission: Evenings, Adults 75c; Children 25c.

### Monday, June 27—Evening

7:45 P. M. Concert, The Southland Artists. Featuring songs of their native Southland.  
8:45 P. M. Lecture, "The Havoc of Steam," Honorable W. L. Harding, Ex-Governor of Iowa.

### Tuesday, June 28—Afternoon

2:30 P. M. Concert, The Southland Artists. Vocal and instrumental.  
3:30 P. M. Lecture, "The Powder and the Match," Judge George D. Alden.

### Evening

7:45 P. M. Concert, The Southland Artists.  
8:45 P. M. Lecture, "The Needs of the Hour," Judge George D. Alden. An orator of much power—Humorous and brilliant.

### Wednesday, June 29—Afternoon

2:30 P. M. Entertainment Program, Tom Corwine. Story Teller—Humorist—Polyphonic Imitator.  
3:00 P. M. Concert, The Serenaders. A professional six piece orchestra giving a varied program.

### Evening

7:45 P. M. Concert, The Serenaders. Special Feature—Good music.  
8:45 P. M. Entertainment program, Tom Corwine, "The Fun-Maker."

### Thursday, June 30—Afternoon

2:30 P. M. Concert, The G. Magnus Schutz Concert Company. A great mixed quartet providing the best in music.

### Evening

7:45 P. M. Concert, The G. Magnus Schutz Concert Company. Every member a soloist.

### Friday, July 1—Afternoon

2:30 P. M. "IMPOSSIBILITIES," The Elwyn Dramatic Company. A delightful Three Act Comedy.

### Evening

7:45 P. M. "THANK-U," The Elwyn Dramatic Company. A great play by a professional cast.  
Buy a Season Ticket and Save Money

### TICKET INFORMATION

ADULT EXCHANGEABLE ADMISSION TICKET: This ticket entitles the owner, or any member of the owner's immediate family, to one admission only to each and every session of the Chautauqua. Not transferable outside of the immediate family. Not good until signed by the owner. Price \$2.00.

CHILD'S EXCHANGEABLE ADMISSION TICKET: Same conditions as above. Good for children eight years of age and up to and including fourteen years of age. Price \$1.00.

SINGLE ADMISSION: The price of single admission varies at the different sessions. See the Hour by Hour program.

NOTE: The amount of money derived from season tickets pledged during the present Chautauqua session determines the amount of money that the Board of Directors can spend on their program for next year. The more tickets pledged, the better the program. Therefore, subscribe liberally for tickets and make certain a great program for 1928.

### BAND CONCERT PROGRAM

Brainerd Municipal Band Will Play Tonight at 8 o'clock in Gregory Park

WEDNESDAY, JUNE 15, 1927

## BETTER SIRE DAY

THREE years ago the Chamber of Commerce raised \$3,000 for the purchase of pure bred sires to be distributed for use among blocks or groups of farmers in Crow Wing county. Business and professional men of Brainerd joined in making this project a successful one, donating the fund raised.

Today the movement has grown so that the sires are matured, their progeny of some fifty heifers are fine cattle and all will be exhibited at the "Better Sires Day" celebration, Saturday, June 18, the cattle being massed in quarters provided at the northeast corner of South Seventh and Maple streets. This vacant lot is just across the street from the Standard Lumber Company.

The Chamber of Commerce with the assistance of the farmers body organized and known as the Crow Wing County Pure Bred Sire Association have worked hand in hand and made the venture a successful one. Better cows means the rejuvenation of the dairy industry of this county.

It means better milk. It means less labor on the part of the farmer for a few good cows are better any day than a herd of mere boarders which eat their keep, make a lot of work and bring very little in return.

So unique and successful has been this community work, so gratifying in linking countryside and town in an era of good feeling, that it has received mention in every possible way and has been given the widest publicity.

It is a case of a community aiding itself, of doing something constructive without federal or state aid. No wonder that agricultural journals, agricultural departments of large metropolitan newspapers, will have their correspondents here to see the celebration.

A good cow is a mortgage lifter, the basis of prosperity. A good creamery follows in the path of good cows and Brainerd has several of these. And pure milk is a consideration too, and Brainerd has a pasteurizing plant.

It has been well said that a good creamery is equal to a large manufacturing enterprise. Dairying in our Brainerd Lake Region is thriving and no small part of its stimulus has been intelligent and active cooperation on the part of town and countryside.

Make it a point to be in Brainerd on Saturday, June 18. See the sires and heifers of the Crow Wing County Pure Bred Sire Association. See the animals judged and the prizes awarded. See the parade following. Hear the addresses delivered.

When the president of a transcontinental railway, Mr. Charles Donnelly, can find time to address the gathering, surely you, Mr. Citizen, can find the time to take part in and attend this celebration. The Northern Pacific railway company believes in the development of the agricultural area in its territory. Happy, contented, prosperous farmers spell much to the community and the railway serving us.

With Mr. Donnelly will no doubt come members of the immigration and agricultural departments of the railway, all interested in watching the continued success of the better sires movement.

Robert Geiger, secretary of the Minnesota Holstein Breeders Association, Minneapolis, will speak on "The Dairy Industry and Better Stock." Other speakers in short talks are local men.

The hours for the program have been so arranged as to suit the farmers' convenience. The program starts at 10 a. m. The parade is at 1 p. m., right after dinner. The speaking at 2 p. m. is short and to the point, so as to permit the farmers to get their stock home early and do their chores. It takes time and trouble to bring sires and heifers to town, to keep the animals in top notch condition and to see that none suffer injury on the trips.

## THE LESSON OF 1917

THE Grand Forks Herald in a recent editorial speaks of "The Lesson of 1917" and mentions that it was just 10 years ago, on June 5, 1917, that the manhood of the United States registered for service in the World war, under the selective service act which had been passed by congress.

The passage of this act, and the registration under its provisions of the man power of the nation marked a departure from the general previous military policy of the United States. In previous conflicts the "volunteer" system had been mainly depended on, and the "draft" adopted as a last resort. When the United States entered the world conflict, however, the government realizing the seriousness of the situation, and that the entire strength of the nation must be mobilized from the beginning to cope with the forces arrayed against it. With splendid spirit the citizenship of the nation arose to meet the crisis and the result was that at the close of that first registration day, ten million men were enrolled and awaiting the call to arms.

But then there was a pause. The United States had 10 million men ready to answer the call to arms, but it had very few arms to call them to, and still fewer men capable of teaching them to use those arms. The result was that we marked time for months until these deficiencies could be remedied to such an extent that the call could be extended to a small fraction of those who awaited it.

Had the fate of the United States at that period depended on the armed land forces it could place in the field the result would have been crushing disaster in spite of the tremendous man power which stood ready for mobilization.

We all hope that not for many years, if ever, will the United States be forced again to fight for its existence or its honor, but we have no guarantee of any such immunity from a curse as old as Cain. And if such a time should come let us pray that we may face it with the same spirit as was displayed in 1917, but not in the condition of utter unpreparedness which prevailed at that time.

## GOSSIP AND RUMOR

WHY is it that gossip and rumor always take the most serious view of anything. For instance, if a man falls out of a boat, gossip in Brainerd has him drowned immediately, forgetting the fact he may swim ashore.

If there is a fire, house and contents are burned to the ground. If a man blasts stumps with dynamite, the first Brainerd report is killed by being blown to pieces.

If a man has family trouble, the washline broadcast is he beat his wife and eloped with the hired girl.

Rumor and gossip never take a charitable view of anything. Both delight in "handing out the worst deal possible." If one

man drowns, gossip and rumor pile on a few more deaths for good measure.

Life is at best a serious proposition and why make it harder to bear by aiding in spreading false gossip and rumor.

## ONE THING AT A TIME

WE believe that Charles M. Babcock needs all the money he can get under present arrangements of the gasoline tax. This spring's breakup indicated that even some of our best gravel roads need a more substantial foundation. The large counties of Ramsey, Hennepin and St. Louis give to the state at large more for roadwork than they ever receive in return.

Until our main trunk line system is put on a good basis, we do not believe in a diversion of present gas tax funds. If one tries to make the present gas tax returns cover trunk highways, state aid roads, county and township roads too, one spreads a thin veneer of improvement which is but a makeshift.

As the money is now spent for trunk highway improvement it is spent under a state-wide standard.

BRAINERD  
25 YEARS AGO

From the Daily Dispatch

June 14, 1902

J. M. Quinn arrived at the Gull Lake Dam Friday with the big boom containing the whole Gull Lake drive of over 4,000,000 feet and it was the quickest trip ever made and he expects it to go into the Mississippi in ten days.

This morning work commenced on the excavation for the new Swedish Baptist church on the corner of Tenth and Oak streets South. The new structure will be on the site of the old building which was destroyed by fire a short time ago. The new building will be more modern in every respect than the old one and will cost in the neighborhood of \$5,000. Architect Haas of St. Cloud prepared the plans.

Mr. and Mrs. J. Wood were to have left for Bemidji today with their household goods where they will live, but Mr. Wood received a tele-

## SORE THROAT

Guaranteed relief within 15 minutes or money back, with one swallow of

gram from Texas announcing the serious illness of his father and he and his wife leave tonight for that place. William Logan will have the run on the M. & I. during Mr. Wood's absence.

The Misses Grace and Lucilla Russell returned this afternoon from Hamline where they have been attending school.

Mr. and Mrs. George Peabody returned this afternoon from Mankato where they have been visiting for some time.

Clara Bow and Einar Hanson in Frank Lloyd's "Children of Divorce" A Paramount Picture

Clara Bow, Flapper Queen Becomes Mother in New Picture

Clara Bow, queen of the flappers, isn't always "flapperish." In "Children of Divorce," the new Paramount picture arriving at the Lyceum theatre today, she plays her first mother role. But not, how-

ever, until she's had an opportunity to be the vivacious, care-free girl she usually portrays.

Miss Bow's characterization is declared by critics to be one of the year's best. The story starts with Clara's childhood and takes her on up through girlhood, young womanhood and finally motherhood.

8. Gladstone was born in 1809.
9. The Forty Years' War between the French and Bavarians and Austrians.
10. Free Trade.

## Waste in Oil Production

In mining oil there is much waste. In some instances as much as ten barrels are left in the ground in getting out one. Also more natural gas is blown into the air when measured from the standpoint of energy, than the energy value of all the oil thus recovered.

## Marital Happiness

We don't say, necessarily, that we speak from actual experience but our idea of a happy marriage would be one where the wife never said, or even hinted for that matter, when her thoughtful husband had given her a present, that she'd rather have had something else.—Ohio State Journal.

## Much Condensing Needed

Mrs. Suburbia, displaying the new receiving set to admiring friends: "It works like this, my dear. The aerial picks up the radio music, and it comes down inside the set, where some funny little things keep on condensing it and condensing it until the noise is small enough to work the loud speaker.—News of the World, London.

## Architectural Secret

Russia's "house of cards" still holds its secret. The magic construction of the old imperial riding academy's roof at Moscow, which doesn't have a beam, brace or pillar, has again baffled inquisitive architects and engineers who tried to find out how it was put together.

## What Is a Diuretic?

People Are Learning the Value of Occasional Use.

EVERYONE knows that a laxative stimulates the bowels. A diuretic performs a similar function to the kidneys. Under the strain of our modern life, our organs are apt to become sluggish and require assistance. More and more people are learning to use Doan's Pills, occasionally, to insure good elimination which is so essential to good health. More than 50,000 grateful users have given Doan's signed recommendations. Scarcely a community but has its representation. Ask your neighbor!

DOAN'S PILLS 60c

## BETTER SIRE DAY

THREE years ago the Chamber of Commerce raised \$3,000 for the purchase of pure bred sires to be distributed for use among blocks or groups of farmers in Crow Wing county. Business and professional men of Brainerd joined in making this project a successful one, donating the fund raised.

Today the movement has grown so that the sires are matured, their progeny of some fifty heifers are fine cattle and all will be exhibited at the "Better Sires Day" celebration, Saturday, June 18, the cattle being massed in quarters provided at the northeast corner of South Seventh and Maple streets. This vacant lot is just across the street from the Standard Lumber Company.

The Chamber of Commerce with the assistance of the farmers body organized and known as the Crow Wing County Pure Bred Sire Association have worked hand in hand and made the venture a successful one. Better cows means the rejuvenation of the dairy industry of this county.

It means better milk. It means less labor on the part of the farmer for a few good cows are better any day than a herd of mere boarders which eat their keep, make a lot of work and bring very little in return.

So unique and successful has been this community work, so gratifying in linking countryside and town in an era of good feeling, that it has received mention in every possible way and has been given the widest publicity.

It is a case of a community aiding itself, of doing something constructive without federal or state aid. No wonder that agricultural journals, agricultural departments of large metropolitan newspapers, will have their correspondents here to see the celebration.

A good cow is a mortgage lifter, the basis of prosperity. A good creamery follows in the path of good cows and Brainerd has several of these. And pure milk is a consideration too, and Brainerd has a pasteurizing plant.

It has been well said that a good creamery is equal to a large manufacturing enterprise. Dairying in our Brainerd Lake Region is thriving and no small part of its stimulus has been intelligent and active cooperation on the part of town and countryside.

Make it a point to be in Brainerd on Saturday, June 18. See the sires and heifers of the Crow Wing County Pure Bred Sire Association. See the animals judged and the prizes awarded. See the parade following. Hear the addresses delivered.

When the president of a transcontinental railway, Mr. Charles Donnelly, can find time to address the gathering, surely you, Mr. Citizen, can find the time to take part in and attend this celebration. The Northern Pacific railway company believes in the development of the agricultural area in its territory. Happy, contented, prosperous farmers spell much to the community and the railway serving us.

With Mr. Donnelly will no doubt come members of the immigration and agricultural departments of the railway, all interested in watching the continued success of the better sires movement.

Robert Geiger, secretary of the Minnesota Holstein Breeders Association, Minneapolis, will speak on "The Dairy Industry and Better Stock." Other speakers in short talks are local men.

The hours for the program have been so arranged as to suit the farmers' convenience. The program starts at 10 a. m. The parade is at 1 p. m., right after dinner. The speaking at 2 p. m. is short and to the point, so as to permit the farmers to get their stock home early and do their chores. It takes time and trouble to bring sires and heifers to town, to keep the animals in top notch condition and to see that none suffer injury on the trips.

## THE LESSON OF 1917

THE Grand Forks Herald in a recent editorial speaks of "The Lesson of 1917" and mentions that it was just 10 years ago, on June 5, 1917, that the manhood of the United States registered for service in the World war, under the selective service act which had been passed by congress.

The passage of this act, and the registration under its provisions of the man power of the nation marked a departure from the general previous military policy of the United States. In previous conflicts the "volunteer" system had been mainly depended on, and the "draft" adopted as a last resort. When the United States entered the world conflict, however, the government realizing the seriousness of the situation, and that the entire strength of the nation must be mobilized from the beginning to cope with the forces arrayed against it. With splendid spirit the citizenship of the nation arose to meet the crisis and the result was that at the close of that first registration day, ten million men were enrolled and awaiting the call to arms.

But then there was a pause. The United States had 10 million men ready to answer the call to arms, but it had very few arms to call them to, and still fewer men capable of teaching them to use those arms. The result was that we marked time for months until these deficiencies could be remedied to such an extent that the call could be extended to a small fraction of those who awaited it.

Had the fate of the United States at that period depended on the armed land forces it could place in the field the result would have been crushing disaster in spite of the tremendous man power which stood ready for mobilization.

We all hope that not for many years, if ever, will the United States be forced again to fight for its existence or its honor, but we have no guarantee of any such immunity from a curse as old as Cain. And if such a time should come let us pray that we may face it with the same spirit as was displayed in 1917, but not in the condition of utter unpreparedness which prevailed at that time.

## GOSSIP AND RUMOR

WHY is it that gossip and rumor always take the most serious view of anything. For instance, if a man falls out of a boat, gossip in Brainerd has him drowned immediately, forgetting the fact he may swim ashore.

If there is a fire, house and contents are burned to the ground. If a man blasts stumps with dynamite, the first Brainerd report is killed by being blown to pieces.

If a man has family trouble, the washline broadcast is he beat his wife and eloped with the hired girl.

Rumor and gossip never take a charitable view of anything. Both delight in "handing out the worst deal possible." If one

man drowns, gossip and rumor pile on a few more deaths for good measure.

Life is at best a serious proposition and why make it harder to bear by aiding in spreading false gossip and rumor.

## ONE THING AT A TIME

We believe that Charles M. Babcock needs all the money he can get under present arrangements of the gasoline tax. This spring's breakup indicated that even some of our best gravel roads need a more substantial foundation. The large counties of Ramsey, Hennepin and St. Louis give to the state at large more for roadwork than they ever receive in return.

Until our main trunk line system is put on a good basis, we do not believe in a diversion of present gas tax funds. If one tries to make the present gas tax returns cover trunk highways, state aid roads, county and township roads too, one spreads a thin veneer of improvement which is but a makeshift.

As the money is now spent for trunk highway improvement it is spent under a state-wide standard.

## Waste in Oil Production

In mining oil there is much waste. In some instances as much as ten barrels are left in the ground in getting out one. Also more natural gas is blown into the air when measured from the standpoint of energy, than the energy value of all the oil thus recovered.

## Marital Happiness

We don't say, necessarily, that we speak from actual experience but our idea of a happy marriage would be one where the wife never said, or even hinted for that matter, when her thoughtful husband had given her a present, that she'd rather have had something else.—Ohio State Journal.

## Much Condensing Needed

Mrs. Suburban, displaying the new receiving set to admiring friends: "It works like this, my dear. The aerial picks up the radio music, and it comes down inside the set, where some funny little things keep on condensing it and condensing it until the noise is small enough to work the loud speaker.—News of the World, London.

## Architectural Secret

Russia's "house of cards" still holds its secret. The magic construction of the old imperial riding academy's roof at Moscow, which doesn't have a beam, brace or pillar, has again baffled inquisitive architects and engineers who tried to find out how it was put together.

## What Is a Diuretic?

People Are Learning the Value of Occasional Use.

EVERYONE knows that a laxative stimulates the bowels. A diuretic performs a similar function to the kidneys. Under the strain of our modern life, our organs are apt to become sluggish and require assistance. More and more people are learning to use Doan's Pills, occasionally, to insure good elimination which is so essential to good health. More than 50,000 grateful users have given Doan's signed recommendations. Scarcely a community but has its representation. Ask your neighbor!

# GOLF SCORES IMPROVING AT OAKMONT

## BRILLIANT SUNSHINE FOLLOWS RAIN

### BRITISH PROFESSIONALS AMONG EARLY STARTERS SHOW IMPROVEMENT

### HAGEN PLAYING FINE GOLF, BUT FIGHTING TROUBLES TOO

Oakmont Country Club, Hulton, Pa., June 15.—(UP)—Scores in the National Open Championship today showed improvement, comparable with the weather, and many a contender who lost his spirits in yesterday's downpour found them again in the brilliant sunshine.

Among the early starters, the British professionals were showing great improvement, and several who were not much in the picture at the start threatened to be close to the top by night.

Harrison "Jimmy" Johnston, Minneapolis amateur, burned up the course on his way home, shooting the last nine holes in 33 strokes, the best performance of the tournament up until that time.

Jimmy had been out in 41 after leading the field with Harry Hampton yesterday, and everyone had given him up for lost.

But on the way home he began to reel off pars and birdies and finished with a total of 74. With his 73 of yesterday it put Johnston well in the lead of the big field.

Gene Sarazen kept close to the heels of the leader with a card for the second round of 39-35-74.

Sarazen's difficulties on the way out were compensated for by his return in par. Although he was trapped on the 15th, a par four hole, and took a six, he made threes on the next two holes and finished well pleased with himself. He then stood second with a 74-74-148 for the two rounds.

Walter Hagen joined the leader with a total for the two rounds of 150. He was out today in 38, one over par, for the first nine, but came home in par figures for the second nine to get a 73.

Harry Hampton of Memphis, pro, one of the leaders yesterday with a 73, turned in a card of 78 for the 18 holes today, putting him close to the leaders with a total score of 151. Hampton was out in 39 and came home in the same number.

Fred Baroni, Pittsburgh professional, was the first to make a par score on the difficult Oakmont course. Baroni turned in a 72 for the 18-hole course, after taking a six on the 12th hole after topping his drive.

Baroni had an 80 yesterday, but today's score will keep him in the money.

Bill Mehlhorn, New York, brought his total for the 36 holes to 152.

Bobby Jones, the champion, turned in a card of 153, six strokes behind Johnson, who led the field with 147.

Archie Compston, the tall British pro, who had been having his troubles along with the others in the rain and mud yesterday, began shooting the best possible golf today and quickly picked up a large following.

Most of the spectators waited for Walter Hagen, the first of the popular American pros, to go out, but those who followed Compston saw some great playing.

Archie was at the turn in 38, one over par, and then brought his scoring to even par figures with a birdie.

But the troubles of the final holes proved too much for him to hold that pace, and he finished with a 74.

With his 79 of yesterday, that put the big Britisher well at the top of those who will go on to play a final 36 holes tomorrow—the chosen 64 who will escape elimination.

Mike Brady, winged foot professional, who had a commendable 78 yesterday, went all to pieces in the sunshine and took 87 for his second round.

C. A. Whitcomb of Great Britain improved his standing with an 80 today, compared with 84 on the first round.

Al Watrous had a good round of 74, going out and coming back in 37 each way. His 82 yesterday, however, put him dangerously near the line that divides the qualifiers from the others.

The 64 lowest on the first two rounds go on to play two more on Thursday.

It was not apparent what total for the first 36 holes would be sufficient to qualify for tomorrow's play, but some of the experts believed that 161 or 162 would be needed.

Scores were generally better under today's ideal weather conditions, although the wind troubles, some and the traps still were in evidence.

Plans for National Swimming Meet

Chicago—Plans for a national swimming meet were drawn up by officials of the Amateur Athletic Federation here. Another meeting will be held June 29 to decide the date of the meet, according to Maj. John L. Griffith, secretary of the federation. It is planned to hold the meet in August.

### EDDIE PICK

### LOOMS AS A

### PINCH HITTER

### RAPS OUT DETERMINING SINGLE

### IN THE ELEVENTH

### INNING

### GIVES CUBS FOURTH STRAIGHT

### OVER NEW YORK

### GIANTS

(By United Press)

Yesterday's hero—Eddie Pick, who joined the Chicago Cubs within the week, and rapped out the single in the 11th inning that gave the Bruins their fourth straight victory over the New York Giants, and their 10th win in a row. The score was 4 to 3.

Pick's single scored Beck. Hack Wilson whacked out his 13th home run of 1927 in the sixth.

Rain prevented play in the American League.

Louisville — Cross' error kept Louisville from blanking Minneapolis. The score was 11 to 1.

Toledo — Jonnard hurled a nice game for Milwaukee, winning from Toledo, 6 to 3.

Indianapolis — Florence, Indianapolis catcher, hit two home runs with one on base each time and helped his team to win over St. Paul 14 to 5.

Canzeroni to Meet Taylor

Chicago—Tony Canzeroni, bantam weight challenger, who meets Bud Taylor, Terre Haute, champion, was to arrive here today to prepare for his title bout in Cubs Park June 23.

New Race Track Law Effective

Springfield, Ill.—All race tracks in the state of Illinois must apply for licenses before Monday, under the new law passed by the legislature. The measure does not apply to state or county fairs. All tracks must pay the state 20 cents on each admission ticket.

Hagen went for everything, while

Bobby Jones seemed to be playing safe. Walter Hagen, it is said, was anxious to get well out in front so that he could allow for the fluctuation of his game. Bobby's main idea seemed to be to avoid the lurking, leering trouble everywhere at Oakmont.

Bobby said he had to work for his score yesterday, that nothing was "clicking." It is this ability to work at the right thing and get results and of course his perfect style, that is responsible, I believe, for Bobby Jones' wonderful consistency record.

Bobby's caddy told me that the crack players don't like to win the first round. I was amused — it sounded like the superstitious gambler who doesn't like to win the first pot at poker, or the baseball pitcher who doesn't like to strike out the first batter.

## CLOSE UPS OF BOBBY JONES, WALTER HAGEN

### WRITER NOTICES THAT WEIGHT SEEMS AN ASSET IN GOLF

### GIVES A SOLID FOUNDATION TO HIT AGAINST, SHE DISCOVERS

By MARY K. BROWNE

(United Press Staff Correspondent)

Oakmont Country Club, Oakmont, Pa., June 15.—As I follow Bobby Jones and Walter Hagen in their rounds over the hazardous Oakmont course in the National Open Golf Tournament, I see much of interest to me, a golf nut and avid seeker of tips.

The first thing that I noticed about Bobby was his weight. Being trained to view an athlete who is overweight as not being fit, I began thinking of weight in connection with golf. Then I looked at Walter Hagen, who is stout. Then I talked with Johnny Farrell on the subject and he said, "I am trying to put on some weight." Well I have discovered that in golf weight is an asset.

for it gives a good solid foundation to hit against. Think of not having to watch and diet and keep down.

The next thing I noticed was that Bobby Jones and Walter Hagen just kept their hands in their pockets out of the rain until they were ready to play their shot. Women try cotton gloves but I think a couple of baggy pockets would suit them better. Then both Bobby and Walter had on sweat-shirts. When you think about it, these are far more sensible than hot, bustly, baggy rain coats.

In cold rainy weather such as prevailed during the first day at Oakmont they use several balls and change frequently, carrying the extra ones in their pockets to keep them warm and lively. I know that the cold and dampness has a decided effect upon a tennis ball but I thought the golf ball was impervious, apparently not. Bobby used three on his first round.

I never saw a single player go to the sand box. All of them use the manufactured wooden tees which are infinitely easier and more uniform and won't melt in the rain. While the players ignore the sand in the boxes all were obliged to bow to the sand in the traps.

Bobby Jones tees his ball rather high, the top half of the ball above his driver head as the club is grounded. Hagen tees his lower, the top quarter just above the driver head. I cannot say that Hagen got more distance. His ball has a lower arc than Bobby's but the ultimate destination was very much the same, both splitting the fairway, or the "pretty" as our English visitors call it.

In playing their wooden clubs on the fairways, I noticed that both these long hitters get down to earth. They do not take a pivot naturally, but they take off the grass and bare the earth under the ball. My own failing is either to dig too deep with my woods or take them too clean and in either case the shot is spoiled.

Neither of these players took more than three or four practice swings on their rounds and usually these were on their chip shots. There is no rule as yet against practice swings but the players think it slows up the game and therefore don't indulge.

Both Bobby Jones and Walter Hagen are ultra deliberate. They study every shot. Bobby usually lines up his put from behind his ball while Hagen looks at it from the hole to the ball, from behind the ball to the hole and sometimes from the side. If at any time something distracts them, they walk away from their ball, until things are settled.

Incidentally Jones carries fourteen clubs—four wooden clubs, an extra driver, spoon and brassie. He has an exact duplicate set in his locker, in case he breaks a club. "Calamity Jane," his old putter was left at home, but he had "Jane" duplicated exactly—just to renew his confidence.

Walter Hagen puts chalk on the face of his wooden clubs to absorb the dampness. After two magnificent wooden shots to the green on the 536 yard fourth at Oakmont, some young golf aspirant remarked, "I guess chalking up is my cue."

I heard some reporter say, "Hagen gives us plenty to write about." I agree that he does. On the 475 yard 15th, Hagen was in a trap about 250 yards down the fairway. He had a good lie at the back of the trap and when I saw him take out his spoon I dashed over to see the shot, and what a shot! Two hundred yards it went, landing him just off the green and he got his four.

I was awed by his audacity with so much at stake.

Hagen went for everything, while

Bobby Jones seemed to be playing safe. Walter Hagen, it is said, was anxious to get well out in front so that he could allow for the fluctuation of his game. Bobby's main idea seemed to be to avoid the lurking, leering trouble everywhere at Oakmont.

Bobby said he had to work for his score yesterday, that nothing was "clicking." It is this ability to work at the right thing and get results and of course his perfect style, that is responsible, I believe, for Bobby Jones' wonderful consistency record.

Bobby's caddy told me that the crack players don't like to win the first round. I was amused — it sounded like the superstitious gambler who doesn't like to win the first pot at poker, or the baseball pitcher who doesn't like to strike out the first batter.

### VAN WALK TOUCHED FOR NINE HITS; ERRORS ON BOTH SIDES FREQUENT

### N. E. AND S. S. WILL MEET TO- MORROW NIGHT TO SETTLE FIRST PLACE

Northeast defeated the Odd Fellows last night by a score of 7 to 4. The game developed into a slugging match. Northeast getting ten hits off Sandgren's offerings, while the Odd Fellows touched Van Walk for nine hits. Errors on both sides were frequent.

Sandgren was steady but was afforded poor support at times. He pulled himself out of a nice hole in the fourth after Jarboe had singled and Thon doubled. N. E. did not score, Kaufman hitting to Sandgren who threw him out. Schwindeman struck out and Van Walk hit to L. Thompson who threw him out at first. Sandgren struck out seven and walked one, while Van Walk struck out four and walked one.

Northeast is keeping pace with the South Side, each team having won five and lost two. Tomorrow night the S. S. plays the Northeast and Friday night the Odd Fellows meet the Y. M. C. A. Five games for each team remain to be played to decide the winner for the first half.

# GOLF SCORES IMPROVING AT OAKMONT

## BRILLIANT SUNSHINE FOLLOWS RAIN

### BRITISH PROFESSIONALS AMONG EARLY STARTERS SHOW IMPROVEMENT

### HAGEN PLAYING FINE GOLF, BUT FIGHTING TROUBLES TOO

Oakmont Country Club, Hulton, Pa., June 15.—(UP)—Scores in the National Open Championship today showed improvement, comparable with the weather, and many a contender who lost his spirits in yesterday's downpour found them again in the brilliant sunshine.

Among the early starters, the British professionals were showing great improvement, and several who were not much in the picture at the start threatened to be close to the top by night.

Harrison "Jimmy" Johnston, Minneapolis amateur, burned up the course on his way home, shooting the last nine holes in 33 strokes, the best performance of the tournament up until that time.

Jimmy had been out in 41 after leading the field with Harry Hampton yesterday, and everyone had given him up for lost.

But on the way home he began to reel off pars and birdies and finished with a total of 74. With his 73 of yesterday it put Johnston well in the lead of the big field.

Gene Sarazen kept close to the heels of the leader with a card for the second round of 39-35-74.

Sarazen's difficulties on the way out were compensated for by his return in par. Although he was trapped on the 15th, a par four hole, and took a six, he made threes on the next two holes and finished well pleased with himself. He then stood second with a 74-74-148 for the two rounds.

Walter Hagen joined the leader, with a total for the two rounds of 150. He was out today in 38, one over par, for the first nine, but came home in par figures for the second nine to get a 73.

Harry Hampton of Memphis, pro, one of the leaders yesterday with a 73, turned in a card of 78 for the 18 holes today, putting him close to the leaders with a total score of 151. Hampton was out in 39 and came home in the same number.

Fred Baroni, Pittsburgh professional, was the first to make a par score on the difficult Oakmont course. Baroni turned in a 72 for the 18-hole course, after taking a six on the 12th hole after topping his drive. Baroni had an 80 yesterday, but today's score will keep him in the money.

Bill Mehlhorn, New York, brought his total for the 36 holes to 152.

Bobby Jones, the champion, turned in a card of 153, six strokes behind Johnston, who led the field with 147. Archie Compston, the tall British pro, who had been having his troubles along with the others in the rain and mud yesterday, began shooting the best possible golf today and quickly picked up a large following.

Most of the spectators waited for Walter Hagen, the first of the popular American pros, to go out, but those who followed Compston saw some great playing.

Archie was at the turn in 38, one over par, and then brought his scoring to even par figures with a birdie.

But the troubles of the final holes proved too much for him to hold that pace, and he finished with a 74.

With his 79 of yesterday, that put the big Britisher well at the top of those who will go on to play a final 36 holes tomorrow—the chosen 64 who will escape elimination.

Mike Brady, winged foot professional, who had a commendable 78 yesterday, went all to pieces in the sunshine and took 87 for his second round.

C. A. Whitcomb of Great Britain improved his standing with an 80 today, compared with 84 on the first round.

Al Watrous had a good round of 74, going out and coming back in 37 each way. His 82 yesterday, however, put him dangerously near the line that divides the qualifiers from the others.

The 64 lowest on the first two rounds go on to play two more on Thursday.

It was not apparent what total for the first 36 holes would be sufficient to qualify for tomorrow's play, but some of the experts believed that 161 or 162 would be needed.

Scores were generally better under today's ideal weather conditions, although the wind troubles some and the traps still were in evidence.

**Plans for National Swimming Meet**  
Chicago — Plans for a national swimming meet were drawn up by officials of the Amateur Athletic Federation here. Another meeting will be held June 29 to decide the date of the meet, according to Maj. John L. Griffith, secretary of the federation. It is planned to hold the meet in August.

Springfield, Ill.—All race tracks in the state of Illinois must apply for licenses before Monday, under the new law passed by the legislature. The measure does not apply to state or county fairs. All tracks must pay the state 20 cents on each admission ticket.

Hagen went for everything, while

## CLOSE UPS OF BOBBY JONES, WALTER HAGEN

### WRITER NOTICES THAT WEIGHT SEEMS AN ASSET IN GOLF

### GIVES A SOLID FOUNDATION TO HIT AGAINST, SHE DISCOVERS

By MARY K. BROWNE  
(United Press Staff Correspondent)  
Oakmont Country Club, Oakmont, Pa., June 15.—As I follow Bobby Jones and Walter Hagen in their rounds over the hazardous Oakmont course in the National Open Golf Tournament, I see much of interest to me, a golf nut and avid seeker of tips.

The first thing that I noticed about Bobby was his weight. Being trained to view an athlete who is overweight as not being fit, I began thinking of weight in connection with golf. Then I looked at Walter Hagen, who is stout. Then I talked with Johnny Farrell on the subject and he said, "I am trying to put on some weight." Well I have discovered that in golf weight is an asset, for it gives a good solid foundation to hit against. Think of not having to watch and diet and keep down.

The next thing I noticed was that Bobby Jones and Walter Hagen just kept their hands in their pockets out of the rain until they were ready to play their shot. Women try cotton gloves but I think a couple of baggy pockets would suit them better. Then both Bobby and Walter had on sweat-shirts. When you think about it, these are far more sensible than hot, bustly, baggy rain coats.

In cold rainy weather such as prevailed during the first day at Oakmont they use several balls and change frequently, carrying the extra ones in their pockets to keep them warm and lively. I know that the cold and dampness has a decided effect upon a tennis ball but I thought the golf ball was impervious, apparently not. Bobby used three on his first round.

I never saw a single player go to the sand box. All of them use the manufactured wooden tees which are infinitely easier and more uniform and won't melt in the rain. While the players ignore the sand in the boxes all were obliged to bow to the sand in the traps.

Bobby Jones tees his ball rather high, the top half of the ball above his driver head as the club is grounded. Hagen tees his lower, the top quarter just above the driver head. I cannot say that Hagen got more distance. His ball has a lower arc than Bobby's but the ultimate destination was very much the same, both splitting the fairway, or the "pretty" as our English visitors call it.

In playing their wooden clubs on the fairways, I noticed that both these long hitters get down to earth. They do not take a pivot naturally, but they take off the grass and bare the earth under the ball. My own failing is either to dig too deep with my woods or take them too clean and in either case the shot is spoiled.

Neither of these players took more than three or four practice swings on their rounds and usually these were on their chip shots. There is no rule as yet against practice swings, but the players think it slows up the game and therefore don't indulge.

Both Bobby Jones and Walter Hagen are ultra deliberate. They study every shot. Bobby usually lines up his put from behind his ball, while Hagen looks at it from the hole to the ball, from behind the ball to the hole and sometimes from the side. If at any time something distracts them, they walk away from their ball, until things are settled.

Incidentally Jones carries fourteen clubs—four wooden clubs, an extra driver, spoon and brassie. He has an exact duplicate set in his locker, in case he breaks a club. "Calamity Jane," his old putter was left at home, but he had "Jane" duplicated exactly—just to renew his confidence.

Walter Hagen puts chalk on the face of his wooden clubs to absorb the dampness. After two magnificent wooden shots to the green on the 536 yard fourth at Oakmont, some young golf aspirant remarked, "I guess chalking up is my cue."

I heard some reporter say, "Hagen gives us plenty to write about." I agree that he does. On the 475 yard 15th, Hagen was in a trap about 250 yards down the fairway. He had a good lie at the back of the trap and when I saw him take out his spoon I dashed over to see the shot, and what a shot! Two hundred yards it went, landing him just off the green and he got his four.

I was awed by his audacity with so much at stake.

Hagen went for everything, while

Bobby Jones seemed to be playing safe. Walter Hagen, it is said, was anxious to get well out in front so that he could allow for the fluctuation of his game. Bobby's main idea seemed to be to avoid the lurking, leering trouble everywhere at Oakmont.

Bobby said he had to work for his score yesterday, that nothing was "clicking." It is this ability to work at the right thing and get results and of course his perfect style, that is responsible, I believe, for Bobby Jones' wonderful consistency record.

Bobby's caddy told me that the crack players don't like to win the first round. I was amused—it sounded like the superstitious gambler who doesn't like to win the first pot at poker, or the baseball pitcher who doesn't like to strike out the first batter.

## LINDBERGH TO THANK FIGHT FANS

### GUEST OF HONOR AT BOXING SHOW IN POLO GROUNDS TONIGHT

By HENRY L. FARRELL  
(United Press Staff Correspondent)  
New York, June 15.—Some idea of the commercial value of the name "Lindbergh" may be obtained tonight when the national hero will be the guest of honor at a boxing show in the Polo grounds for the benefit of the Catholic boys' fund show.

The advance sale and the estimate of late sales before the announcement of Lindbergh's presence was made indicated that the receipts would approach \$300,000. If they go beyond that, it will be Lindbergh.

So great has become the last minute demands for tickets and so terrific may be the rush for the unreserved seats late this afternoon that the police department had to take precautions almost as thorough for his protection as on the day he arrived from Washington.

The flier, with Mayor James J. Walker and Grover Whalen, will watch only one bout, a 10-round affair between Ace Hudkins, Lincoln, Neb., and Sgt. Sammy Baker, a soldier from the Mineola flying field, which had been scheduled as the semi-final.

Lindbergh expressed chief interest in this bout because at the time he was learning to fly, young Hudkins was learning to fight in a little gymnasium not far from the flying field.

Lindbergh will be introduced from the ring and it is understood that he will express his appreciation for the act of 50,000 boxing fans who stood with bare heads for a moment of silent prayer the night he headed into the darkness over the waters for Paris.

# CHRYSLER "50" ALONE

**Gives Such Performance—Beauty—Comfort**

Chrysler "50" *superiorities in appearance* are apparent at a glance—truly full size, mohair plush upholstery, smartness of line, beauty of color and trimness of appointment which make you proud to own and drive it.

Chrysler "50" *superiorities in performance* are easily recognizable in a real trial over any route you select, yourself at the wheel—50 and more smooth miles an hour, 5 to 25 miles in 8 seconds, 25 miles to the gallon, riding and handling ease beyond all previous experience in a car of this price, combined with the lasting dependability born of the engineering genius and manufacturing precision embodied in Chrysler Standardized Quality.

We are eager to have you see the Chrysler "50", ride in it and drive it, fully confident that its outstanding superiorities over any and all cars of its price will inevitably sway your decision in its favor.

Coupe \$750; Coach \$780; Roadster (with rumble seat) \$795; Sedan \$830; f. o. b. Detroit, subject to current Federal excise tax. Chrysler dealers are in a position to extend the convenience of time payments. Ask about Chrysler's attractive plan. All Chrysler cars have the additional protection against theft of the Fedco System of numbering.

**Chrysler "50" Features**

- 50 miles and more an hour;
- 5 to 25 miles in 8 seconds;
- 25 miles to the gallon;
- Full-sized, with ample seating capacity for adult passengers;
- Mohair plush upholstery.

## CROWDS GATHER TO SEE COOLIDGE ON HIS TRIP WEST

FIRST TRIP SO FAR WEST BY  
PRESIDENT AND MRS.  
COOLIDGE

FIRST RECEPTION FOR TODAY  
PLANNED FOR PIERRE  
S. D.

By PAUL R. MALLON  
(United Press Staff Correspondent)  
Aboard President Coolidge's Special Train near Huron, S. D., June 15.—Through vast acres of wheat fields, President Coolidge's special train moved today, pausing at little communities where people were gathered to see a president of the United States for the first time.

Crowds gathered at almost every station for a glimpse at President and Mrs. Coolidge. It was a novelty both for the crowds and for the president. Never before as a president has Mr. Coolidge been so far west and never before have the people of this district met the nation's chief executive.

This afternoon at about 5:30 P. M., mountain time, Mr. Coolidge and his party will arrive at Rapid City, S. D., the nearest rail point to the state game lodge where the president will spend his summer vacation.

The president's party consists of 85 White House attaches, secret service men and newspapermen.

The first reception today is planned for Pierre, capital of South Dakota. There Governor Bulow and other state officials will welcome the party at noon, formally receiving the chief executive to the state.

Both Mr. and Mrs. Coolidge are having a great time on the trip. Mr. Coolidge likes the observation platform and early this morning was there sunning himself with Reb Roy, the White House collie.

It is an excursion for Mrs. Coolidge. She especially enjoyed the movie shown in their private car last night—"The Rough Riders." It was a story of the Spanish American war.

Several times on the trip west she has gone forward to the baggage car to see Rebecca, her pet raccoon, and the cat and canaries, White House pets, which with the two collies, were brought along.

Rapid City, S. D., June 15.—Between 25,000 and 50,000 persons are expected tonight to greet President Coolidge to the Black Hills of South Dakota—once a frontier country which rang with the names of Deadwood Dick and Wild Bill Hickok.

The old west will mingle with the new west in greeting the nation's chief executive.

Through the crowd at the station when the presidential special arrives about 5 P. M., mountain time, there will be cowboys and Indians. The Indians will be in their full costumes and the cowboys will wear the ten gallon hats, chaps and brightly colored shirts which mean "dress-up clothes" to them.

There was a prediction of unfavorable weather for the arrival but this did not deter plans for the great reception.

## "In a Little Spanish Town" was Written in South Dakota

In a little Spanish town, I was on a night like this. Stars were puka-boring down, I was on a night like this.

### Romantic Song Hit Result of Author's Game of Pretend

New York City.—A desolate, treeless little village in the West was the inspiration for the most glowing romantic waltz song of the season.

Mable Wayne, who wrote "In a Little Spanish Town," the song in question, tells how it happened.

"When I was a little girl," she explains, "I was always dreaming of Spain. The most thumbed spot in my geography was the page that carried a big map of that country. I was always turning to it for consolation when I hadn't known my lessons and everything had gone wrong generally."

"Then at sixteen, I went on the stage as a pianist and got used to weekly jumps from one small western or middle western town to another. 'Got used,' I say, but I guess I never really did get very reconciled to it for the bleak little towns always made my heart ache. At least, they did until I

discovered a perfectly lovely game that I could play by myself.

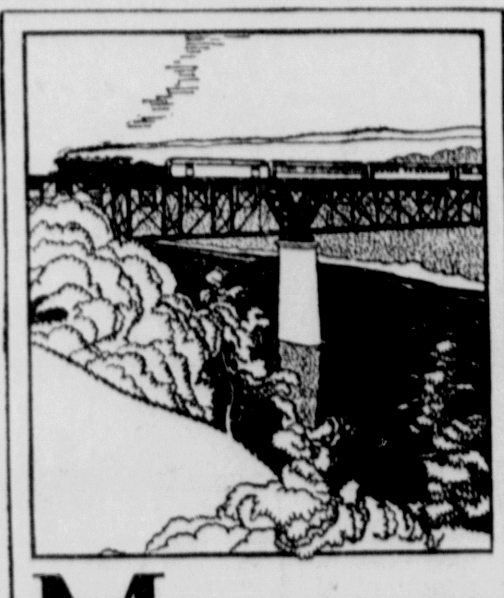

"This game allowed me to make up little stories about the places, and since there need be no limits to my imagination, I moved every last one of them to my favorite dream countries. In an effort to atone for them for what they had missed, I always located the very bleakest towns of all in Spain."

"The day I wrote 'In a Little Spanish Town,' we had reached South Dakota and when I looked out the train window, I beheld the most dismal town of any. The few people I could see had such discouraged faces, too, as if they had never known happiness or romance."

"I took a pad and pencil out of my purse and began to scribble to keep myself from crying. I was blue, anyway, because my head ached and I was wondering whether I was going to be a vaudeville ham all my life. Well, the notes that I scribbled were those of 'In a Little Spanish Town.' I felt so sorry for that Dakota place that I just dressed it up Spanish."

ment, the republicans 44, labor, 22, independents 12, farmers 11, national league 8, Sinn Fein 5. Only Dublin university and national university returns were unreported.

## Discriminating travelers acclaim the New Pioneer Limited!

## The MILWAUKEE ROAD

THE New Pioneer Limited is a train the Twin Cities, Milwaukee and Chicago are ready to shout about! The finest that has ever come from the shops.

Roller bearings make overnight travel a calm, unbroken delight! Actual beds in charming individual staterooms, perfectly equipped, with permanent, deep box springs and soft mattresses!

The entire train is just as new and modern! Electric refrigeration and electric food mixers in the dining-cars! A cuisine that cannot be surpassed.

## DOUBT IF FLARES ARE THOSE OF NUNGESSER, COLI

REPORTED TO HAVE BEEN SEEN  
IN NORTHERN  
QUEBEC

COLI. FRENCH FLIER, REFUSED  
TO TAKE ROCKETS ACCOUNT  
OF FIRE DANGER

Paris, June 15.—(UP)—Officials of the Levasseur Company, builders of the "White Bird," doubted today if flares reported seen in northern Quebec had been sent up by the missing French flier, Charles Nungesser and Francois Coll. They recalled that just before taking off, Coll refused to take rockets, fearing the danger of fire.

Madame Nungesser, the ace's mother, was more hopeful. She sent the family doctor to the United Press office here to inquire if additional news had been received of the Canadian government's investigation of the reported signals.

Worrying that her son may be starving to death or otherwise suffering from injuries, she has slept an average of only two hours a night since her son set out more than five

weeks ago to fly from Paris to New York, she said. She spends her mornings in church, sometimes kneeling in prayer for three hours at a time.

## POLICE SEARCH FOR DRIVER INJURING GIRL

Duluth, Minn., June 15.—(UP)—Police today were searching for the driver of an automobile which caused serious injuries to Beatrice Smith, 20, in an accident in the downtown district.

The young woman was taken to a hospital where her foot was amputated.

The accident occurred when the hunted driver careened his car into another automobile in which the victim was riding, and fled.

### Famous Americans

Rufus Putnam and Israel Putnam were cousins. Both served with distinction during the Revolutionary war, but the career of Israel Putnam was longer and perhaps more spectacular than that of his cousin. His rank was also higher.

### Lessons in Happiness

Devote your greatest concern to others and you will find the spring of happiness is in your front yard. Alexander City (S.A.) Outlook.

## WILL ROGERS ON WAY TO RECOVERY

Beverly Hills, Calif., June 15.—(UP)—Will Rogers, the wandering mayor of Beverly Hills, was reported "well on the road to recovery" today following a nervous breakdown that confined him to bed for several days.

# ISO-VIS

Takes the "guess" out of lubrication!

It's a great satisfaction to know that your car is thoroughly lubricated—that there's no danger of the oil thinning out, no matter how long your trip.

If you use Iso-Vis, you can know that satisfaction. There was no guesswork in the making of this motor oil. It was carefully and painstakingly developed to meet the new theory of scientific lubrication.

There's no guesswork about its performance either. Iso-Vis lubricates a car with a new efficiency—always on the job every mile of every trip! One of the thousands of appreciative letters the Standard Oil Company (Indiana) has received, relating actual experiences with Iso-Vis, is reproduced below:

Iso-Vis takes the "guess" out of lubrication because it maintains constant viscosity—it is always the same. The body is as good at the finish as it was at the start—in fact it "seems a shame to throw it away!"

According to statistics, ordinary oil loses two-thirds of its body before the car has gone 200 miles. That explains the big difference motorists notice when they start using Iso-Vis—the greater smoothness—the freedom from dilution troubles—"better lubrication at lowered cost per mile!" Iso-Vis saves trouble—and saves money! 30c per quart at Standard Oil Service Stations and all licensed garages.

# ISO=VIS

Takes the "guess" out of lubrication!

It's a great satisfaction to know that your car is thoroughly lubricated—that there's no danger of the oil thinning out, no matter how long your trip.

If you use Iso=Vis, you can know that satisfaction. There was no guesswork in the making of this motor oil. It was carefully and painstakingly developed to meet the new theory of scientific lubrication.

There's no guesswork about its performance either. Iso=Vis lubricates a car with a new efficiency—always on the job every mile of every trip! One of the thousands of appreciative letters the Standard Oil Company (Indiana) has received, relating actual experiences with Iso=Vis, is reproduced below:

Mr. C.H. Troeger, Sales Manager  
Standard Oil Co. (Ind.)  
Des Moines, Iowa

Dear Sir:—  
It is a great satisfaction to have the guess taken out of lubrication. I'll tell you why.  
For 5,213 miles, since ISO-VIS came on the market, I have positively proven that a normal filling of your new product will run my Dodge well over 1,000 miles, without change and without adding a drop.  
This has been done under a great variation of conditions, such as temperature, roads and mileage per day. Nothing that goes on outside my motor seems to have the slightest influence on the service I get from ISO-VIS.  
And yet, after getting this service out of the oil, the lubricating quality is so good that it seems a shame to throw it away.  
Then, there is the saving in oil cost. On a basis of actual service, my oil cost with ISO-VIS is less than half the amount I used to spend on other oils.  
To state it tersely—to me ISO-VIS means a better lubrication service at a much lowered cost per mile.  
Very truly yours,  
[Signature]

Iso=Vis takes the "guess" out of lubrication because it maintains constant viscosity—it is always the same. The body is as good at the finish as it was at the start—in fact it "seems a shame to throw it away!"

According to statistics, ordinary oil loses two-thirds of its body before the car has gone 200 miles. That explains the big difference motorists notice when they start using Iso=Vis—the greater smoothness—the freedom from dilution troubles—"better lubrication at lowered cost per mile!" Iso=Vis saves trouble—and saves money! 30¢ per quart at Standard Oil Service Stations and all licensed garages.

## W. M. BROCK GIVES SELF UP TO POLICE

Minneapolis Man Confesses to Forgery of Checks in Mill City to Police Chief

### WANTS TO PAY PENALTY

Charged With Forgery Checks Amounting to \$250; Accomplish Left Him Stranded

Tormented in mind with the fear of being apprehended, Walter M. Brock, 2619 Clinton avenue, Minneapolis, walked into the office of Thomas Templeton, chief of police yesterday and requested to be placed in jail.

"For the past month I have lead a life of fear," he confessed to Chief Templeton. "I got into trouble in Minneapolis, and now without money, I want to give myself up and pay the penalty of my misdeeds for I know that I will just get myself in deeper."

Brock through his confession will be charged with forgery of four checks in Minneapolis, totalling \$250. He is alleged to have forged the name of C. E. Campbell, cashed a check for \$70 on the account of the Anoka Potato Co. and three \$60 checks on the same firm. Checks were cashed at Dayton's store, The Alexander Check bureau, the Ed. Motor Co., and the Mathey Tire Co. All checks were cashed on May 23. Brock was taken today to Minneapolis by two detectives to stand trial.

A man said to be an accomplice of Brock is reported by Brock to have stolen \$50 from him while in Brainerd and the automobile which they travelled in.

A charge may also be placed against him for the alleged passing of a check on the Spalding hotel in Duluth.

### ESDON

Joseph Ruttger of the Bay Lake resort had a finger taken off while working around a wood saw. He was taken to Crosby for medical attention.

Mrs. Con Isle and Mrs. Sam Bloomstrom of Brainerd visited at Archie Coffeld's on Friday.

Mr. and Mrs. Elmer Forsberg of Brainerd spent Sunday at their cottage on Crooked Lake.

Mrs. Archie Coffeld will entertain the ladies aid on Thursday. All members are requested to be present and visitors are welcome.

Mr. Pipper has completed his new cottage on Crooked Lake and now has a crew of men constructing a road into his property.

John Coffeld has returned from Liberty, Sask., Canada. Found the weather of the same type as that the weatherman has been handing out to Minnesota.

The Misses Marie and Beatrice Guin went to Brainerd to attend the M. E. picnic at Lum Park on Tuesday.

### NORTH PRAIRIE

The Parent Teacher's Association of District 84 met on Wednesday evening, June 8. It was decided to have an ice cream social on the evening of our next meeting, July 13. Keep the date in mind, it is easy to remember, and watch for further announcements.

Mrs. Robert Hanson and daughter, Miriam of Winchester, Idaho, are visiting with her parents, Mr. and Mrs. L. Babcock.

A very good program was given by the children at the Union Sunday school on Sunday. It was Children's Day and the collection was given to the American Sunday school union.

Mr. and Mrs. Glanville and family have bought a farm in this community and are building a home there.

Mrs. Albert Young and daughter Irene called at the Albert Peterson home Tuesday.

David R. Anderson, whose parents are missionaries in China and who has spent most of his life there, held a preaching service in the Union church on Sunday afternoon. On Monday evening he gave a very interesting talk on China also showing many articles such as idols, beads, embroidery, an incense bowl, pagoda, ink well, etc. On Tuesday he will speak at the East Daggett Brook school house. Mr. Anderson will be remembered from having held a Bible school and evangelistic services here with A. Sehnas last summer.

The Union church ladies aid will meet Thursday afternoon at the home of Mrs. Fuchs.

Ruth Gieson has had a light case of measles.

Rev. Damon of Brainerd will preach at the church on Sunday afternoon at 3 o'clock and will continue these services during the summer.

### W. B. A. Meeting

The W. B. A. will hold their regular meeting tomorrow night, Thursday, June 16, at 7:45 o'clock. Members are requested to bear in mind the kitchen shower. Refreshments will be served during the social hour.

## UNVEIL GREGORY SQUARE MARKER

Members of D. A. R. and Citizens Attending Patriotic Exercises Yesterday Afternoon

### HONOR OLD GLORY

Mrs. M. A. Bronson Gives "History of Flag" and Presents Marker to City of Brainerd

Amid the beauties of Gregory park with its well kept greens, flower beds, dahlia and lilac bushes, the Stars and Stripes unfurled to the breeze, members of the D. A. R., city officials, and patriotic citizens gathered yesterday afternoon to pay homage and respect to the "Flag of Old Glory," and to witness the impressive ceremony of the unveiling of the bronze marker, memorial to the donor of the park, The Lake Superior and Puget Sound Co., and J. Gregory Smith, first president of the Northern Pacific railway after whom the park was named. The marker was officially presented to the city of Brainerd by Mrs. M. A. Bronson, Regent of the Samuel Huntington Chapter, D. A. R. Brainerd and received by Mayor Frank E. Little who thanked the D. A. R. members for their thoughtfulness.

The exercises were impressive in their presentation. The program opened with the playing of the Star Spangled Banner by the Brainerd Boys Concert band followed by invocation given by Robert J. Long.

In giving the "History of Our Flag," Mrs. Bronson spoke as follows:

"Today we gather to commemorate the one hundred and fiftieth anniversary of the adoption of the stars and stripes. On June 14, 1777, the American congress assembled in Philadelphia, passed the resolution that the flag of the thirteen states be thirteen stripes alternating red and white, and that the union be thirteen stars in a circle on a blue field representing the new constellation."

"Little did our forefathers, who voted for this resolution realize that they were voting for the adoption of a flag destined to become in the short space of one hundred fifty years the emblem of the greatest and most powerful nation on earth, that of our own United States. It is probably not generally known that though we are the youngest of the great nations, our flag is older than that of any others. The flag of England in its distinctive form of the Union Jack dates back only to 1801. The French tri color was adopted in 1794. The German and Italian banners were no older than the existing regimes of these countries. The Spaniards first established theirs in 1875, while the 14th of June, 1777, was the day on which Continental Congress passed its memorable resolution. A few days prior to this the revolutionary statesmen, then in session in Philadelphia, appointed a committee to consider the object of a general standard for the troops and colonies. Tradition says that General Washington, who was a member of the committee with Robert Morris and Colonel Ross took the rough sketch proposed to Mrs. John Ross, 239 Arch street, Philadelphia. This design consisted of alternate stripes of red and white with thirteen six pointed stars in the blue field. Mrs. Ross protested against the six pointed stars, whereupon she folded a scrap of paper in such a manner that with one cut of the scissor she could produce a five pointed star of beautiful cemetery. The committee accepted her suggestion. She made the first star spangled banner, and for 60 years she made all of the flags, for the use of the government, at her house at 239 Arch St., Philadelphia, which is still standing."

"This first banner made was unfurled to the breeze on the city hall in Philadelphia. It was first used in battle at Morristown by way of Round-brook, New Jersey, where Washington's army was besieged by the British, and all over this land today, every city and hamlet is celebrating the One Hundred and Fiftieth Anniversary of the Stars and Stripes but perhaps the most impressive ceremonies are being held at Georgetown, New Jersey, where all of the State of New Jersey and many statesmen are participating."

"Oddly enough the United States has fought under a different flag in every war, in which she has participated. The Revolutionary war was fought under the flag of 13 stars and 13 stripes. The war of 1812, otherwise known as the second war of independence, was fought under the flag of 15 stars and 15 stripes, eight red and seven white. The Civil war was fought by the North under 34 stars representing 34 states. Eleven of the States had declared their stars out of the union and had formed a new confederate flag in which they were represented by stars, but President Lincoln refused to withdraw these states from the union flag and before the close of the Civil war two stars had been added to represent West Virginia and Nevada, bringing the number of the stars to 36. At the time of the war with Spain in 1898, there were 45 states and during the world war there were 48. Until 1912 there was some confusion as to the proper distribution of the 48 stars in the blue field. On October 25, 1912 this matter was definitely settled by the executive order of President Taft, that the stars were to be arranged in six rows of eight each symbolizing the 48 states in the order of their ratification. The evolution of our flag is now probably complete, unless at some future date Alaska, Porto Rico, Hawaii and the Philippines attain statehood."

"Among the curious facts not generally known about our flag, the first request for a flag was received by our government from an Indian, named Thomas Green, who presented three strings of wampum to the Continental Congress with the request that flags be provided for Indian chiefs in order to insure for them the protection of the government. The first naval salute to be given our flag was received by the battleship "Ranger" under command of John Paul Jones, and was given from General Lamont Pequet off the coast of France."

"During the year 1927, there are being formed through the United States Flag Associations, their aim to foster reverence for the flag of the United States, and combat all influences, conditions and forces hostile to ideals, traditions, principles and institution for which our flag stands."

"This is called the Sesquicentennial year of the adoption of the flag and for \$1 you may enroll in this association to form what is called the living flag, living flag because long years after we are gone our names and principles for which this association stands will live after us."

"As a tribute to the flag and appreciation of what the flag has done for us in the one hundred and fifty years passed may we not renew our allegiance to our flag by all giving the flag salute."

Mrs. Bronson in presenting the marker to the city of Brainerd spoke as follows:

"We are here today for the unique purpose of unveiling this memorial to the memory of Governor Gregory Smith, for whose wife the city of Brainerd was named. He was the first president of the Northern Pacific railroad. It is not necessary for me to eulogize on the character and benevolence of this man, he is too well known in Brainerd. But this we must say of him that he was of a philanthropic spirit. When in years passed he foresaw the need of such a park as Gregory park and set aside the tract of land for that purpose. A place where our children can play and spend many pleasant hours. It can be truly said of him that his deeds live after him, and it is that the public, especially our tourist, may know and well realize what a beautiful philanthropic character he was."

"The marking of historic spots is especially the work of the Daughters of the American Revolution, and there is not a State in the union but can point today with pride to some spot made sacred by the memory of some man or woman who gave his or her life or their property for the blessing of liberty, civilization and enterprise that we now enjoy. Many of those spots were unmarked until there arose in the land the Daughters of the American Revolution."

"During the year 1926, \$153,661.78 was spent in the preservation of historic spots. This amount marked 1271 historic spots. In presenting this boulder and marker to the City of Brainerd I wish to render unto Caesar that to which Caesar is due. The thought of this marker originated with Mrs. R. T. Campbell, and Mrs. F. S. Parker, her mother. By our bylaws the regent of our chapter, is ex-officio chairman of all committees, but in this particular case our vice regent Mrs. R. T. Campbell is chairman of this committee. To her, together with the committee constituted of Mrs. J. M. Hayes, Mrs. Fred Parker, Mrs. Fred Wieland and Mrs. W. A. M. Johnstone is due much credit for the success of this enterprise. This, however, is the work of the entire Samuel Huntington Chapter of Brainerd. We can say here of a truth it has not been the individual or the army as a whole, but the concentrated team work of every willing soul."

"And now in behalf of the Samuel Huntington Chapter I wish to thank you who have so graciously assisted in this work, and to you 'Our Honorable Frank E. Little, Mayor of Brainerd,' in behalf of the Samuel Huntington Chapter, Daughters of the American Revolution, it is with no little pride I present to the city of Brainerd this boulder and marker complete with its inscription which tells of the wonderful philanthropic character of the donor of this park, J. Gregory Smith."

Following the acceptance of the marker, the Brainerd Boys Concert band rendered "America" and the exercises closed with benediction by Rev. H. F. Damon.

The following resolution was adopted by the chapter: "Be it resolved that the Samuel Huntington Chapter, D. A. R. extend to Robert T. Campbell, L. C. Kuschel, Seymour Roberts, Thompson Bros. and Clau-

## FISHING CLUB ENJOYS OUTING

Thirty Members of Brainerd Fishing Club Fish in Leech Lake Over Week End

### CATCH OVER 200 PIKE

Dr. J. A. Thabes Elected President of Club for Ensuing Year; F. J. Lowey, Vice President

The Brainerd Fishing club on their annual outing to Leech Lake over the weekend held their annual meeting at Ottotail Point, the following officers being elected for the ensuing year:

President—Dr. J. A. Thabes.  
Vice President—Frank J. Lowey.  
Custodian—John Carlson.  
Secretary-Treasurer—Art Drogseth.

Thirty members of the club enjoyed the outing, each fisherman catching the limit. The members left by motor car from Brainerd Saturday evening, spent the night at the New Chase Hotel at Walker and left by motor boat at 6 a. m. Sunday for Ottotail Point, a distance of about 14 miles of Leech Lake from Walker. Over 200 fish were taken from the lake. Special mention is due Charles Kinkle, Walker, former Brainerdite for his excellent services as chef.

### SURPRISED ON BIRTHDAY

Friends Gather to Wish Mrs. Emma Wilson Happy Returns of Day

Mrs. Emma Wilson was pleasantly surprised at the home of her daughter and son-in-law, Mr. and Mrs. Fred Olson, 1710 Pine street on Saturday, June 11, the occasion being her birthday.

A very pleasant afternoon was spent after which a delicious lunch was served. The guests present were: Mesdames Magnus Olson, Charles Olson, Charles Nelson, Erick Nelson, Robert Nelson, Marie Lovgren, Portland, Ore.; Ernest Lind, Tascos, Wash.; John Hedman, Harold Whitlock, K. O. Bergstrand, P. A. Johnson, Louis Stallman, Ted Stallman, Emil Anderson, Hilding Swanson, and Misses Clara Hedman, Vennia Nelson.

Mrs. Wilson received many beautiful gifts and all wished her many happy returns of the day.

## LUTHER LEAGUE IN CONVENTION

Elect Rev. August Samuelson President of District Association

### IS HIS 4TH TERM

Miss Anna K. Erickson, of Brainerd, Elected Secretary

Rev. August Samuelson, pastor of the Clara Lutheran church of Brainerd was elected president of the district Luther League at its annual convention held at Milaca, June 10-12. This is Rev. Samuelson's fourth term. Other officers elected were:

Vice President—Rev. J. G. Carlson, Isle.  
Secretary—Anna K. Erickson, Brainerd.  
Treasurer—Ellen Anderson, Foley.  
Statistician—Engrid Lilquist, St. Cloud.

Appropriations of \$25 each were given for the Minneapolis Jewish fund, Bethage Mission of Nebraska and building fund of the Bible Institute of St. Paul.

Over 150 delegates were present including 30 from Brainerd. The next convention will be held at Atkin in June 1928.

### Murphy-Bartsch

A marriage of interest to Brainerd people was solemnized this morning at 11 o'clock at St. Paul's Episcopal church when Miss Edythe E. Bartsch, daughter of Mr. and Mrs. Wm. P. Bartsch of 407 North Eighth street became the bride of Dr. Edward S. Murphy of Glendive, Mont. Bishop Gaylord Bennett of Duluth officiated at the ceremony which was performed.

Sen. J. L. Parwell, a vote of thanks for their assistance in regard to the boulder and marker, also a copy of these resolutions be so read on the minutes of this society and be published in the Brainerd Daily Dispatch."

Flag boys at the exercises were Zane Smith, James Wieland, Wilbur Knudsen, and Gordon Campbell.

## W. M. BROCK GIVES SELF UP TO POLICE

Minneapolis Man Confesses to Forgery of Checks in Mill City to Police Chief

### WANTS TO PAY PENALTY

Charged With Forgery Checks Amounting to \$250; Accomplish Left Him Stranded

Tormented in mind with the fear of being apprehended, Walter M. Brock, 2619 Clinton avenue, Minneapolis, walked into the office of Thomas Templeton, chief of police yesterday and requested to be placed in jail.

"For the past month I have lead a life of fear," he confessed to Chief Templeton. "I got into trouble in Minneapolis, and now without money, I want to give myself up and pay the penalty of my misdeeds for I know that I will just get myself in deeper."

Brock through his confession will be charged with forgery of four checks in Minneapolis, totalling \$250. He is alleged to have forged the name of C. E. Campbell, cashed a check for \$70 on the account of the Anoka Potato Co. and three \$60 checks on the same firm. Checks were cashed at Dayton's store, The Alexander Check bureau, the Edith Motor Co., and the Mathey Tire Co. All checks were cashed on May 23. Brock was taken today to Minneapolis by two detectives to stand trial.

A man said to be an accomplice of Brock is reported by Brock to have stolen \$50 from him while in Brainerd and the automobile which they travelled in.

A charge may also be placed against him for the alleged passing of a check on the Spalding hotel in Duluth.

### ESDON

Joseph Rutter of the Bay Lake resort had a finger taken off while working around a wood saw. He was taken to Crosby for medical attention.

Mrs. Con Isle and Mrs. Sam Bloomstrom of Brainerd visited at Archie Coffield's on Friday.

Mr. and Mrs. Elmer Forsberg of Brainerd spent Sunday at their cottage on Crooked Lake.

Mrs. Archie Coffield will entertain the ladies aid on Thursday. All members are requested to be present and visitors are welcome.

Mr. Pipfer has completed his new cottage on Crooked Lake and now has a crew of men constructing a road into his property.

John Coffield has returned from Liberty, Sask., Canada. Found the weather of the same type as that the weatherman has been handing out to Minnesota.

The Misses Marie and Beatrice Guin went to Brainerd to attend the M. E. picnic at Lum Park on Tuesday.

### NORTH PRAIRIE

The Parent Teacher's Association of District 84 met on Wednesday evening, June 8. It was decided to have an ice cream social on the evening of our next meeting, July 13. Keep the date in mind, it is easy to remember, and watch for further announcements.

Mrs. Robert Hanson and daughter, Miriam of Winchester, Idaho, are visiting with her parents, Mr. and Mrs. L. Babcock.

A very good program was given by the children at the Union Sunday school on Sunday. It was Children's Day and the collection was given to the American Sunday school union.

Mr. and Mrs. Glanville and family have bought a farm in this community and are building a home there.

Mrs. Albert Young and daughter Irene called at the Albert Peterson home Tuesday.

David R. Anderson, whose parents are missionaries in China and who has spent most of his life there, held a preaching service in the Union church on Sunday afternoon. On Monday evening he gave a very interesting talk on China also showing many articles such as idols, beads, embroidery, an incense bowl, pagoda, ink well, etc. On Tuesday he will speak at the East Daggett Brook school house. Mr. Anderson will be remembered from having held a Bible school and evangelistic services here with A. Selness last summer.

The Union church ladies aid will meet Thursday afternoon at the home of Mrs. Fuels.

Ruth Grieson has had a light case of measles.

Rev. Damon of Brainerd will preach at the church on Sunday afternoon at 3 o'clock and will continue these services during the summer.

### W. B. A. Meeting

The W. B. A. will hold their regular meeting tomorrow night, Thursday, June 16, at 7:45 o'clock. Members are requested to bear in mind the kitchen shower. Refreshments will be served during the social hour.

## UNVEIL GREGORY SQUARE MARKER

Members of D. A. R. and Citizens Attending Patriotic Exercises Yesterday Afternoon

### HONOR OLD GLORY

Mrs. M. A. Bronson Gives "History of Flag" and Presents Marker to City of Brainerd

Amid the beauties of Gregory park with its well kept greens, flower beds, dahlia and lilac bushes, the Stars and Stripes unfurled to the breeze, members of the D. A. R. city officials, and patriotic citizens gathered yesterday afternoon to pay homage and respect to the "Flag of Old Glory," and to witness the impressive ceremony of the unveiling of the bronze marker, memorial to the donor of the park, The Lake Superior and Puget Sound Co., and J. Gregory Smith, first president of the Northern Pacific railway after whom the park was named. The marker was officially presented to the city of Brainerd by Mrs. M. A. Bronson, Regent of the Samuel Huntington Chapter, D. A. R. Brainerd and received by Mayor Frank E. Little who thanked the D. A. R. members for their thoughtfulness.

The exercises were impressive in their presentation. The program opened with the playing of the Star Spangled Banner by the Brainerd Boys Concert band followed by invocation given by Robert J. Long.

In giving the "History of Our Flag," Mrs. Bronson spoke as follows:

"Today we gather to commemorate the one hundred and fiftieth anniversary of the adoption of the stars and stripes. On June 14, 1777, the American congress assembled in Philadelphia, passed the resolution that the flag of the thirteen states be thirteen stripes alternating red and white, and that the union be thirteen stars in a circle on a blue field representing the new constellation.

"Little did our forefathers, who voted for this resolution realize that they were voting for the adoption of a flag destined to become in the short space of one hundred fifty years the emblem of the greatest and most powerful nation on earth, that of our own United States. It is probably not generally known that though we are the youngest of the great nations, our flag is older than that of any others. The flag of England in its distinctive form of the Union Jack dates back only to 1801. The French tri color was adopted in 1794. The German and Italian banners were no older than the existing regimes of these countries. The Spaniards first established theirs in 1875, while the 14th of June, 1777, was the day on which Continental Congress passed its memorable resolution. A few days prior to this the revolutionary statesmen, then in session in Philadelphia, appointed a committee to consider the object of a general standard for the troops and colonies. Tradition says that General Washington, who was a member of the committee with Robert Morris and Colonel Ross took the rough sketch proposed to Mrs. John Ross, 239 Arch street, Philadelphia. This design consisted of alternate stripes of red and white with thirteen six pointed stars in the blue field. Mrs. Ross protested against the six pointed stars, whereupon she folded a scrap of paper in such a manner that with one cut of the scissor she could produce a five pointed star of beautiful cemetery. The committee accepted her suggestion. She made the first star spangled banner, and for 60 years she made all of the flags, for the use of the government, at her house at 239 Arch St., Philadelphia, which is still standing.

"This first banner made was unfurled to the breeze on the city hall in Philadelphia. It was first used in battle at Morristown by way of Bound-brook, New Jersey, where Washington's army was besieged by the British, and all over this land today, every city and hamlet is celebrating the One Hundred and Fiftieth Anniversary of the Stars and Stripes but perhaps the most impressive ceremonies are being held at Georgetown, New Jersey, where all of the State of New Jersey and many statesmen are participating.

"Oddly enough the United States has fought under a different flag in every war, in which she has participated. The Revolutionary war was fought under the flag of 13 stars and 13 stripes. The war of 1812, otherwise known as the second war of Independence, was fought under the flag of 15 stars and 15 stripes, eight red and seven white. The Civil war was fought by the North under 34 stars representing 34 states. Eleven of the States had declared their stars out of the union and had formed a new confederate flag in which they were represented by stars, but President Lincoln refused to withdraw these states from the union flag and before the close of the Civil war two stars had been added to represent West Virginia and Nevada, bringing the number of the stars to 36. At the time of the war with Spain in 1898, there were 45 states and during the world war there were 48. Until 1912 there was some confusion as to the proper distribution of the 48 stars in the blue field. On October 25, 1912 this matter was definitely settled by the executive order of President Taft, that the stars were to be arranged in six rows of eight each symbolizing the 48 states in the order of their ratification. The evolution of our flag is now probably complete, unless at some future date Alaska, Porto Rico, Hawaii and the Philippines attain statehood.

"Among the curious facts not generally known about our flag, the first request for a flag was received by our government from an Indian, named Thomas Green, who presented three strings of wampum to the Continental Congress with the request that flags be provided for Indian chiefs in order to insure for them the protection of the government. The first naval salute to be given our flag was received by the battleship "Ranger" under command of John Paul Jones, and was given from General Lamont Pequot off the coast of France.

"During the year 1927, there are being formed through the United States Flag Associations, their aim to foster reverence for the flag of the United States, and combat all influences, conditions and forces hostile to ideals, traditions, principles and institution for which our flag stands.

"This is called the Sesquicentennial year of the adoption of the flag and for \$1 you may enroll in this association to form what is called the living flag, living flag because long years after we are gone our names and principles for which this association stands will live after us.

"As a tribute to the flag and appreciation of what the flag has done for us in the one hundred and fifty years passed may we not all renew our allegiance to our flag by all giving the flag salute."

Mrs. Bronson in presenting the marker to the city of Brainerd spoke as follows:

"We are here today for the unique purpose of unveiling this memorial to the memory of Governor Gregory Smith, for whose wife the city of Brainerd was named. He was the first president of the Northern Pacific railroad. It is not necessary for me to eulogize on the character and benevolence of this man, who is too well known in Brainerd. But this we must say of him that he was of a philanthropic spirit. When in years passed he foresaw the need of such a park as Gregory park and set aside the tract of land for that purpose. A place where our children can play and spend many pleasant hours. It can be truly said of him that his deeds live after him, and it is that the public, especially our tourist, may know and well realize what a beautiful philanthropic character he was.

"The marking of historic spots is especially the work of the Daughters of the American Revolution, and there is not a State in the union but can point today with pride to some spot made sacred by the memory of some man or woman who gave his or her life or their property for the blessing of liberty, civilization and enterprise that we now enjoy. Many of these spots were unmarked until there arose in the land the Daughters of the American Revolution.

"During the year 1926, \$153,661.78 was spent in the preservation of historic spots. This amount marked 1271 historic spots. In presenting this boulder and marker to the City of Brainerd I wish to render unto Caesar that to which Caesar is due. The thought of this marker originated with Mrs. R. T. Campbell, and Mrs. F. S. Parker, her mother. By our bylaws the regent of our chapter, is ex officio chairman of all committees, but in this particular case our vice regent Mrs. R. T. Campbell is chairman of this committee. To her, together with the committee constituted of Mrs. J. M. Hayes, Mrs. Fred Parker, Mrs. Fred Wieland and Mrs. W. A. M. Johnstone is due much credit for the success of this enterprise. This, however, is the work of the entire Samuel Huntington Chapter of Brainerd. We can say here of a truth it has not been the individual or the army as a whole, but the concentrated team work of every willing soul.

"And now in behalf of the Samuel Huntington Chapter I wish to thank you who have so graciously assisted in this work, and to you 'Our Honorable Frank E. Little, Mayor of Brainerd,' in behalf of the Samuel Huntington Chapter, Daughters of the American Revolution. It is with no little pride I present to the city of Brainerd this boulder and marker complete with its inscription which tells of the wonderful philanthropic character of the donor of this park, J. Gregory Smith."

Following the acceptance of the marker, the Brainerd Boys Concert band rendered "America" and the exercises closed with benediction by Rev. H. F. Damon.

The following resolution was adopted by the chapter: "Be it resolved that the Samuel Huntington Chapter, D. A. R. extend to Robert T. Campbell, L. C. Kuschel, Seymour Roberts, Thompson Bros. and Clau-

## TWO CHILDREN TAKE LONG HIKE

Youngsters Spend Two Days  
and Nights on Road  
Back to Mother.

Lewiston, Maine.—Posing as mother and son, Aurore Lina Coulombe, fifteen, and her brother, Georges Coulombe, Jr., thirteen, walked from Sagus Center, Mass., where they had been living with their father, to Lewiston to join their mother, who is living at 215½ Lincoln street, and a younger brother, Laurent, at the Healy asylum. It took them two days and nights to make the trip.

The arrival of brother and sister in Lewiston was the successful result of plans evolved since last July. The girl had then been at St. Mary's orphanage in Lewiston while the boy lived with an uncle, Willie Coulombe, on Lincoln street. The father called for both children, they said, saying he wanted to take them on a fishing trip for the week-end and promised to bring them back.

He had the children board an automobile with him and started. The children, however, seeing the lengthening trip, became suspicious and after much questioning finally learned that their father was taking them to live with him in Massachusetts.

Watched Numbers on Posts.

On that trip the children, brother and sister, set themselves to watch the road that they might find their way back in time. By thus watching they noticed that posts from Lewiston to Portland were marked with the number 26 and that from Portland to Sagus Center, where their father took them, the number appearing on posts along the way was number 1.

Both boy and girl came with just what they were wearing except an extra dress and pair of shoes for the girl.

"We had packed some clothes in a suitcase," said the girl, "but it weighed so much we thought we'd better leave it because we wouldn't be able to run." The dress and shoes were carried in a bundle.

Never were they allowed out of the yard of their Massachusetts home, but together the brother and sister secretly made their plans. One day they were left in the care of a neighbor.

The neighbor was called to Lynn and so they were left alone.

They didn't know how long it would take them, but they were leaving to walk to Lewiston.

Taking a big box of matches with them that they might see the number they remembered would keep them on the right road to Lewiston, they started, brother and sister, now become mother and son who had lost their money, and were therefore walking to Lewiston to join husband and father. The girl looked young to be the mother of this boy, but in this flapper age who can guess a woman's age with certainty?

### Got Four Lifts.

They had four lifts along the way, not very long ones any of them, the longest being for one mile—they could tell by watching the speedometer on the car. The children can hardly get over the surprise of the short time it took them to accomplish the trip. They had thought it would take much longer. At first, fearing pursuit, they ran a great deal, but good, dry roads helped them until they came into Maine when in the dark they failed to see water holes and once the girl fell and has a badly scratched leg to show as evidence. Luckily, the children both seem to be in the best of health. The scratches on the girl's leg are healing and they seem not a bit tired and are all thrilled by their exploit.

The mother, of course, is glad to have her children with her and has been assured by the local police that nothing should force her to give them up. She works in the Continental mill. "She's a good woman," says a neighbor.

Neighbors were busy bringing clothes for the children that they might change from the clothes they have worn since they left Massachusetts. The clothes are not new, and the boy's stockings didn't match, but both brother and sister are happy. They are planning to go to school in Lewiston, the mother will continue working and the girl, who has spent four years at St. Mary's orphanage, is capable and will, after school hours, take care of the house.

### Wills Money to Cemetery

New York.—By the will of Simon Oppenheimer, died here in the surrogate's office, the income of a \$1,000 trust fund is left to the mayor of Burkheim, a town in Hessen, Germany, for the upkeep of a cemetery there.

### New York Truck Men

Bar Hit and Run Drivers

New York.—Following a meeting of its executive committee, Isaac Goldberg, president of the Merchant Truckmen's bureau, issued a bulletin to all members, urging that steps be taken to assist the police in cutting down the growing number of hit-and-run drivers. Goldberg recommended that all truckmen post in their garages and offices warnings to drivers against leaving the scene of an accident, and further offering a standing bureau reward of \$100 for the apprehension of any driver employed by a member of the organization who "hits and runs."

## IGNORANCE IS BLAMED FOR MALNUTRITION IN CHILDREN

Children Traced to Faulty  
Nutrition.

Washington.—Investigations by the children's bureau of the United States Department of Labor of the extent of malnutrition among children indicate that from one-fourth to one-third of the children in the United States are definitely malnourished.

Why are there so many children below par? Evidently they were not "just born that way," for the studies of malnourished children show that in the great majority of cases they started life in normal physical condition. Given this start they should have developed into healthy, robust children. That they failed to do so indicates that something is wrong with their diet and mode of living.

Improper or inadequate diet, lack of sleep, too little outdoor play, fresh air, and sunshine; overexertion due to too much work or too strenuous play, and physical defects such as bad teeth, tonsils, or adenoids are listed among the causes of malnutrition. But this gives rise to another question: Why are children improperly fed? Why do they have too little sleep? Why are bad tonsils, teeth, or adenoids not attended to? The answer seems to be that ignorance, lack of parental control and poverty, singly or together, are the causes underlying these bad conditions.

Parents come in for a heavy share of blame. Abundant evidence has been found to show that ignorance and lack of parental control are more important causes of malnutrition than poverty. Studies have shown that many children are improperly fed because parents do not know what are the proper foods for children nor how to spend their money to get the best return in food values; because they do not know that children should have regular meals, and because they do not know that drinking tea and coffee and eating indiscriminately between meals are worse for children than adults.

Then, too, there are parents who know all these things, but who just don't seem to care what and how their children eat or when they go to bed. The result of this ignorance or neglect is malnutrition, which may result in lowered vitality, increased susceptibility to disease, and retarded mental development. A large proportion of mortality among children is traced directly or indirectly to faulty nutrition.

### New Money Issued

for Esperantists

Amsterdam.—Have you seen a specimen? It is a new banknote issued by the "Universa Spesimila bank," a circulation bank of the Dutch Esperanto association, which has its seat in Laar, a small village in the province of North Holland.

A few weeks ago the first series of 1,000 of these notes was issued. One specimen has a value of 50 cents, 12 Dutch florins or 2.5 gold francs.

The International money was designed by Prof. Rene de Saussure, formerly of Washington, now living in Geneva. The purpose of the specimen, which is nothing more than a private tender, is to facilitate payments between Esperantists for subscriptions.

According to a statute of the Bank of Holland, no circulation bank may be established in this country and no foreign enterprise may put its bank notes into circulation except by virtue of a special law. The Bank of Holland is skeptical and does not understand the need of a new international tender when the letter of credit is so well established.

## TWO CHILDREN TAKE LONG HIKE

Youngsters Spend Two Days  
and Nights on Road  
Back to Mother.

Lewiston, Maine.—Posing as mother and son, Aurora Lina Coulombe, fifteen, and her brother, Georges Coulombe, Jr., thirteen, walked from Sagus Center, Mass., where they had been living with their father, to Lewiston to join their mother, who is living at 215½ Lincoln street, and a younger brother, Laurent, at the Healy asylum. It took them two days and nights to make the trip.

The arrival of brother and sister in Lewiston was the successful result of plans evolved since last July. The girl had then been at St. Mary's orphanage in Lewiston while the boy lived with an uncle, Willie Coulombe, on Lincoln street. The father called for both children, they said, saying he wanted to take them on a fishing trip for the week-end and promised to bring them back.

He had the children board an automobile with him and started. The children, however, seeing the longening trip, became suspicious and after much questioning finally learned that their father was taking them to live with him in Massachusetts.

Watched Numbers on Posts. On that trip the children, brother and sister, set themselves to watch the road that they might find their way back in time. By thus watching they noticed that posts from Lewiston to Portland were marked with the number 26 and that from Portland on to Sagus Center, where their father took them, the number appearing on posts along the way was number 1.

Both boy and girl came with just what they were wearing except an extra dress and pair of shoes for the girl.

"We had packed some clothes in a suitcase," said the girl, "but it weighed so much we thought we'd better leave it because we wouldn't be able to run." The dress and shoes were carried in a bundle.

Never were they allowed out of the yard of their Massachusetts home, but together the brother and sister secretly made their plans. One day they were left in the care of a neighbor.

The neighbor was called to Lynn and so they were left alone.

They didn't know how long it would take them, but they were leaving to walk to Lewiston.

Taking a big box of matches with them that they might see the number they remembered would keep them on the right road to Lewiston, they started, brother and sister, now become mother and son who had lost their money, and were therefore walking to Lewiston to join husband and father. The girl looked young to be the mother of this boy, but in this flapper age who can guess a woman's age with certainty?

### Got Four Lifts.

They had four lifts along the way, not very long ones any of them, the longest being for one mile—they could tell by watching the speedometer on the car. The children can hardly get over the surprise of the short time it took them to accomplish the trip. They had thought it would take much longer. At first, fearing pursuit, they ran a great deal, but good, dry roads helped them until they came into Maine when in the dark they failed to see water holes and once the girl fell and has a badly scratched leg to show as evidence. Luckily, the children both seem to be in the best of health. The scratches on the girl's leg are healing and they seem not a bit tired and are all thrilled by their exploit.

The mother, of course, is glad to have her children with her and has been assured by the local police that nothing should force her to give them up. She works in the Continental mill. "She's a good woman," says a neighbor.

Neighbors were busy bringing clothes for the children that they might change from those they have worn since they left Massachusetts. The clothes are not new, and the boy's stockings didn't match, but both brother and sister are happy. They are planning to go to school in Lewiston, the mother will continue working and the girl, who has spent four years at St. Mary's orphanage, is capable and will, after school hours, take care of the house.

Wills Money to Cemetery. New York.—By the will of Simon Oppenheimer, filed here in the surrogate's office, the income of a \$1,000 trust fund is left to the mayor of Burkheim, a town in Hessen, Germany, for the upkeep of a cemetery there.

### New York Truck Men Bar Hit and Run Drivers

New York.—Following a meeting of its executive committee, Isaac Goldberg, president of the Merchants Truckmen's bureau, issued a bulletin to all members, urging that steps be taken to assist the police in cutting down the growing number of hit-and-run drivers. Goldberg recommended that all truckmen post in their garages and offices warnings to drivers against leaving the scene of an accident, and further offering a standing bureau reward of \$100 for the apprehension of any driver employed by a member of the organization who "hits and runs."

## IGNORANCE IS BLAMED FOR MALNUTRITION IN CHILDREN

Large Proportion of Mortality Among  
Children Traced to Faulty  
Nutrition.

Washington.—Investigations by the children's bureau of the United States Department of Labor of the extent of malnutrition among children indicate that from one-fourth to one-third of the children in the United States are definitely malnourished.

Why are there so many children below par? Evidently they were not "just born that way," for the studies of malnourished children show that in the great majority of cases they started life in normal physical condition. Given this start they should have developed into healthy, robust children. That they failed to do so indicates that something is wrong with their diet and mode of living.

Improper or inadequate diet, lack of sleep, too little outdoor play, fresh air, and sunshine; overexertion due to too much work or too strenuous play, and physical defects such as bad teeth, tonsils, or adenoids are listed among the causes of malnutrition. But this gives rise to another question: Why are children improperly fed? Why do they have too little sleep? Why are bad tonsils, teeth, or adenoids not attended to? The answer seems to be that ignorance, lack of parental control and poverty, singly or together, are the causes underlying these bad conditions.

Parents come in for a heavy share of blame. Abundant evidence has been found to show that ignorance and lack of parental control are more important causes of malnutrition than poverty. Studies have shown that many children are improperly fed because parents do not know what are the proper foods for children nor how to spend their money to get the best return in food values; because they do not know that children should have regular meals, and because they do not know that drinking tea and coffee and eating indiscriminately between meals are worse for children than adults.

Then, too, there are parents who know all these things, but who just don't seem to care what and how their children eat or when they go to bed. The result of this ignorance or neglect is malnutrition, which may result in lowered vitality, increased susceptibility to disease, and retarded mental development. A large proportion of mortality among children is traced directly or indirectly to faulty nutrition.

### New Money Issued for Esperantists

Amsterdam.—Have you seen a spesimilo? It is a new banknote issued by the "Universa Spesimila bank," a circulation bank of the Dutch Esperanto association, which has its seat in Laaren, a small village in the province of North Holland.

A few weeks ago the first series of 1,000 of these notes was issued. One spesimilo has a value of 50 cents, 1.2 Dutch florins or 2.5 gold francs.

The international money was designed by Prof. Rene de Saussure, formerly of Washington, now living in Geneva. The purpose of the spesimilo, which is nothing more than a private tender, is to facilitate payments between Esperantists for subscriptions.

According to a statute of the Bank of Holland, no circulation bank may be established in this country and no foreign enterprise may put its bank notes into circulation except by virtue of a special law. The Bank of Holland is skeptical and does not understand the need of a new international tender when the letter of credit is so well established.
